1.Introduction

Teaching English in the Ecuadorian Bachillerato General (BG) today requires a clear commitment to fostering critical thinking and active citizenship. Learners aged 14 to 17 navigate a complex global landscape shaped by social changes, digital communication, and the rapid emergence of generative artificial intelligence. Within this reality, the English classroom serves as a vital space where language learning directly supports personal growth, critical reflection, and meaningful social interaction.

Grounded in the Constitution of Ecuador and the principles of Sumak Kawsay, this curriculum views English not merely as an academic subject, but as a practical tool for inquiry, intercultural dialogue, and civic participation. It balances foundational educational values with a deep recognition of Latin American and Andean epistemologies, ensuring that global language learning respects and engages with local knowledge and diverse cultural contexts.

A competency-based approach guarantees that students learn to apply language in real-world situations. By integrating the four traditional skills—listening, speaking, reading, and writing—with modern multimodal communication (such as visual, digital, and media texts), the curriculum prepares learners to analyze information critically, express their personal voices, and collaborate ethically.

This proposal is built on three core commitments: honesty, setting realistic and achievable proficiency goals tailored to the Ecuadorian educational context; inclusion, catering to heterogeneous classrooms with diverse linguistic backgrounds, learning needs, and talents; and coherence, ensuring alignment between official guidelines and daily classroom practice. Ultimately, this curriculum provides a practical, rigorous, and inspiring framework for teachers and students across Ecuador.

PROGRAMA PILOTO

2. Contribution of the discipline to the development of the key competencies

The teaching of English at **BG** contributes to the development of key competencies through operational descriptors organized around situated B1 practices. Together, they reflect a curriculum in which English functions as a tool for communication, critical thinking, scientific inquiry, digital participation, citizenship, cultural expression, innovation, and socioemotional development. Language learning is connected to real academic, personal, and community contexts, allowing learners to use English to understand diverse perspectives, communicate ideas, collaborate with others, and participate responsibly in an increasingly interconnected world.

Competencia Comunicativa (CC) English in BG strengthens communicative competence by enabling learners to understand, interpret, and produce academic, literary, and social texts. Students develop reading, writing, speaking, and listening skills to express ideas, support opinions, organize information, interact respectfully, and recognize linguistic and cultural diversity through intercultural communication.

Competencia matemática y en ciencia y tecnología (CMCT) The teaching of English at BG contributes to the development of key competencies through operational descriptors organized around situated B1 practices. Together, they reflect a curriculum in which English functions as a tool for communication, critical thinking, scientific inquiry, digital participation, citizenship, cultural expression, innovation, and socioemotional development. Language learning is connected to real academic, personal, and community contexts, allowing learners to use English to understand diverse perspectives, communicate ideas, collaborate with others, and participate responsibly in an increasingly interconnected world.

Ciudadana, identidad y conciencia cultural (CCICC) English supports learners' participation in a community of difference through experiences where they describe people, places, and actions, build classroom rules, explore kindness and conflict, value family and community expressions, and recognize that diverse languages and cultures can coexist.

Competencia Digital (CD) English develops digital competence by enabling learners to search, evaluate, and communicate information responsibly. Students analyze digital sources, recognize misinformation and bias, use digital tools ethically, collaborate through online platforms, acknowledge sources, and understand digital risks. English becomes a resource for safe, critical, and responsible participation in digital environments.

PROGRAMA PILOTO

Competencia de Innovación y Transformación (CIT) English promotes innovation and transformation by supporting learners in identifying needs, designing solutions, collaborating on projects, and communicating ideas clearly. Students evaluate impacts, listen to community perspectives, organize initiatives, reflect on resources, and adapt their proposals through feedback, understanding creativity as a collaborative process connected to social and environmental responsibility.

Competencia Socioemocional (CSE) English provides opportunities for socioemotional development by allowing learners to express identity, experiences, emotions, and personal perspectives. Students practice empathy, active listening, respectful communication, and relationship-building while recognizing different experiences and viewpoints. Through interaction in English, learners strengthen self-awareness, collaboration, and the ability to create inclusive spaces.

Competencia de Expresión Cultural y Artísrica (CECA) English supports cultural and artistic expression by enabling learners to communicate ideas through diverse artistic forms such as image, sound, movement, and text. Students explore cultural expressions, interpret artistic meanings, respect diverse voices, and use English to explain creative choices, appreciate heritage, and participate in meaningful artistic and community experiences.

PROGRAMA PILOTO

3.COMMUNICATIVE THREADS

1. Oral Comprehension

Oral comprehension at BG develops from the ability to follow clear standard speech on familiar topics toward the understanding of a wider range of spoken texts, speakers, registers, and communicative purposes. Learners interpret the main ideas, supporting details, attitudes, and viewpoints in presentations, podcasts, news reports, documentaries, interviews, and conversations. Through listening strategies, phonological awareness, and exposure to diverse English varieties, students strengthen their ability to construct meaning, recognize different perspectives, and participate respectfully in academic, social, and intercultural contexts.

2. Oral Interaction and Production

Oral interaction and production at BG develops learners' ability to use English as a language for meaningful exchange in academic, social, and intercultural contexts. Learners participate in conversations and discussions, express and support opinions, ask for clarification, manage turn-taking, and respond appropriately in real interactions. They deliver structured presentations, narrate, describe, and explain familiar topics using appropriate linguistic resources, visual support, and audience awareness. Through attention to pronunciation, intonation, discourse organization, intercultural communication, and diverse interaction contexts, students strengthen their confidence to communicate with both native and non-native English speakers, recognizing English as a shared tool for global communication.

3. Reading Comprehension

Reading comprehension at BG develops learners' ability to engage with a wider range of academic, literary, journalistic, digital, and multimodal texts in English with increasing autonomy and critical awareness. Learners identify main ideas, supporting details, author's purpose, and implied viewpoints; compare information from different sources; evaluate reliability and recognize bias, manipulation, and emerging digital challenges. Through explicit strategies for inference, vocabulary development, comprehension monitoring, and critical reading, students strengthen their capacity to interpret, analyze, and reflect on diverse texts connected to academic, personal, cultural, and social contexts. Reading is also promoted as a personal practice that encourages curiosity, independent learning, and intercultural understanding.

4. Written Production

Written production at BG develops learners' ability to use English as a tool for meaningful composition across academic, personal, cultural, and social contexts. Learners produce structured texts of moderate length using appropriate organization, cohesion, coherence, genre conventions, and source acknowledgement. They develop a personal voice through intentional choices of tone, register, vocabulary, and style, while creating functional, academic, narrative, literary, and digital texts. Through a writing process that includes planning, drafting, revising, editing, and publishing, students strengthen accuracy, creativity, collaboration, and responsible use of digital tools, preparing them to communicate effectively in further studies, professional contexts, civic participation, and personal projects.

PROGRAMA PILOTO

4.Specific Competencies Matrix

Specific Competency	Assessment indicators
CE.EFL.5.1. Expansion of communicative awareness through the analysis of non-verbal language in audiovisual contexts in English, including gestures, facial expressions, and body language, to understand communication as a multimodal process. **CC, CCICC, CSE, CECA.**	**I.EFL.5.1.1.** Identify and describe at least three types of nonverbal cues — gesture, facial expression, posture, or gaze — in an audiovisual fragment in English, explaining what each conveys and how it complements or contradicts the verbal message. **I.EFL.5.1.2.** Compare nonverbal communication conventions in two different English-speaking cultural contexts, explaining observed similarities and differences with supporting examples from the materials viewed. **I.EFL.5.1.3**. Evaluate how nonverbal resources in a short video or speech change the overall communicative effect, justifying the analysis with evidence from the viewed text and relevant terminology.

Knowledge		
Declarative	**Procedural**	**Atitudinal**
EFL.5.1.d.4. Nonverbal and paralinguistic resources in English-language communication: gestures, gaze, facial expressions, posture, proxemics, and their cultural variation across contexts. **EFL.5.3.d.28.** Cultural diversity of English-using communities: language and cultural practices in the Philippines, Kenya, Tanzania, Aotearoa/New Zealand, Vietnam, India, Jamaica, Singapore, and Ireland — their histories with English, distinct voices, and contributions to global culture and knowledge. **EFL.5.2.d.29.** Intercultural awareness in communication: politeness norms, register expectations, taboo or sensitive topics, and the cultural specificity of humour, indirectness, and non-verbal behaviour.	**EFL.5.1.p.3**. Understand TV programs, films, and online video content on familiar topics, identifying the setting, characters' stances, and the emotional tone of exchanges. **EFL.5.1.p.4.** Identify a speaker's attitude, opinion, and degree of certainty in interviews, debates, and discussions, using lexical and prosodic cues.	**EFL.5.2.a.1.** Show genuine attention and respect when others are speaking in English by maintaining eye contact, using appropriate backchanneling, and waiting for natural pauses before responding. **EFL.5.2.a.4.** Show curiosity and openness toward the cultural practices, values, and perspectives of English-using communities.

PROGRAMA PILOTO

Methodological guidlines

These methodological guidelines employ Project-Based Learning, inquiry, case-study analysis, the flipped classroom, and gamification to analyze nonverbal and paralinguistic resources in global English without resorting to mimicry or stereotypes. By carefully observing short-form audiovisual clips from diverse regions—such as Mumbai, Kingston, Manila, and Mérida—students analyze gestures, gaze, posture, and tone of voice, using observation grids to describe these nonverbal cues objectively before comparing their communicative functions across cultures.

Working in rotating roles, students critically examine these media fragments alongside camera techniques and indirect citations to assemble a collaborative, bilingual field guide and companion reel. This process guides learners from initial descriptive observation to intercultural comparison and ethical reflection, ensuring they recognize nonverbal communication on its own terms while challenging implicit defaults, avoiding cultural appropriation, and developing respectful, empathetic listening skills.

Interdisciplinary connections

In Lengua y Literatura, students analyze prosody and master audiovisual citation practices, while in Estudios Sociales, they explore postcolonial geographies, migration histories, and the representation of regional bodies on global screens. Through Educación Cultural y Artística, learners apply artistic grammars such as kinesics, cinematography, and sound design to create their multimodal pieces, while Filosofía provides the ethical grounding to reflect on bodily hermeneutics and the boundary between cultural recognition and appropriation. Furthermore, discussions on pluricentric language rights in Educación para la Ciudadanía foster responsible intercultural citizenship, and Tecnologías de la Información y la Comunicación equips students with essential skills in digital editing, media extraction, and ethical online sourcing.

PROGRAMA PILOTO

Specific Competency	Assessment indicators
CE.EFL.5.2. Development of inclusive communication through a short audio guide for a local cultural exhibition, using guided recording and revision to share local knowledge with English-speaking visitors and to recognize community voices and cultural heritage. **CCICC, CD, CECA, CIT.**	**I.EFL.5.2.1**. Produce a short audio guide for a local cultural space or exhibition that includes an introduction, descriptions of at least two exhibits, and a closing statement, using appropriate register and clear pronunciation. **I.EFL.5.2.2.** Describe and explain the significance of a local cultural object, practice, or place in English, using vocabulary related to heritage, community, and identity, and including at least one community voice or perspective. **I.EFL.5.2.3.** Revise a recorded audio guide using peer feedback and a checklist focused on content accuracy, register, pronunciation clarity, and the inclusion of local voices.

Knowledge		
Declarative	**Procedural**	**Atitudinal**
EFL.5.2.d.1. Registers in spoken English — formal, semi-formal, and informal — and the vocabulary, intonation, and formulas that distinguish them across face-to-face, phone, and digital interactions. **EFL.5.2.d.3.**Prosodic features used for emphasis and contrast: sentence stress on key information, contrastive stress, rising and falling intonation in statements and different question types, and intonation in tag questions and lists. **EFL.5.2.d.5.** Oral and multimodal genres: structured interview, personal anecdote, opinion presentation with visual support, audio guide, short video piece with voice-over, and vlog episode — their purpose, audience, and organisational conventions.	**EFL.5.2.p.5.** Give a structured oral presentation on an academic or community topic, using visual aids and clearly organising information into an introduction, main points, and a conclusion. **EFL.5.2.p.10.** Open, maintain, and close conversations in semi-formal contexts — introductions, service encounters, school or community meetings — using appropriate formulas and register. **EFL.5.2.p.39.** Act as an informal interpreter for short exchanges in school or community contexts, facilitating communication between English and Spanish speakers with accuracy and respect. **EFL.5.2.p.40.** Mediate cultural concepts — practices, values, or references specific to one culture — across two cultural contexts, explaining their meaning and significance to an audience unfamiliar with them.	**EFL.5.2.a.16.** Show commitment to accuracy and improvement in language production, using feedback from rubrics, peers, and teachers as a resource for growth rather than a judgment. **EFL.5.2.a.18.** Recognize that language errors are a natural and necessary part of learning, and develop resilience and a growth mindset in response to difficulty or correction.

PROGRAMA PILOTO

EFL.5.1.d.24. Word stress patterns in multisyllabic words: primary and secondary stress, stress-shifting pairs (*record/record*, *present/present*), and the effect of suffixes on stress placement (*-tion, ic, -ity, -ify*). **EFL.5.1.d.25.** Sentence stress, rhythm, and timing in English as a stress-timed language: nuclear stress on new information, contrastive stress for emphasis, and the reduction of unstressed syllables in natural speech. **EFL.5.1.d.26.** Intonation patterns and their communicative values: falling intonation in statements and wh-questions; rising intonation in yes/no questions, lists (except the final item), and tag questions expecting confirmation; and fall-rise for implication and doubt. **EFL.5.1.d.27.** Connected speech features: linking between words ending and beginning with consonants and vowels, consonant assimilation, elision of unstressed syllables, and weak forms of grammatical words (*to, for, of, and, was, can, have*). **EFL.5.3.d.31.** Local Ecuadorian culture, heritage, and identity expressed in English: natural landscapes, ancestral knowledge, community traditions, Afro-Ecuadorian and Indigenous voices, and the principle of *Sumak Kawsay / Buen Vivir* as a framework for sustainable living. **EFL.5.2.d.37**. Self-assessment and peer assessment in language learning: rubric criteria for spoken and written production at B1; consolidated error analysis; constructive feedback language; and the distinction between accuracy, fluency, and range.	**EFL.5.2.p.42**. Monitor comprehension and production during a task using checklists, self-assessment rubrics, and peer feedback, and adjust strategies as needed. **EFL.5.2.p.45.** Describe local landscapes, urban and rural spaces, natural features, and community traditions in English with sensory detail and cultural respect. **EFL.5.2.a.14.** Recognize the importance of second chances and repair in collaborative learning: willingness to revisit, revise, and rebuild understanding after miscommunication or disagreement.	**EFL.5.3.a.24.** Engage with artistic and multimodal production — vlogs, photo-essays, audio guides, illustrated anthologies — as expressive acts that contribute one's own voice to a shared cultural record.

PROGRAMA PILOTO

Methodological guidlines

These methodological guidelines employ Project-Based Learning, service learning, inquiry, case-study analysis, the flipped classroom, and gamification to guide students in producing an English-language audio guide for an existing local exhibition. Working in rotating roles, students visit the exhibition, select key pieces, study model audio guides from diverse regions, build vocabulary and narration banks, and conduct recorded interviews with community voices—such as weavers, carpenters, and elders—securing informed consent and integrating original language clips with English paraphrases.

Following a structured architecture of hook, description, context, community voice, and invitation, students draft, phonologically mark, and record their narrations at multiple speeds with inclusive playback options and clean transcripts. The process culminates in printing QR codes, hosting a public listening session for community contributors, assembling a metadata page, and delivering an individual ninety-second oral reflection, thereby fostering communicative precision, cultural valuing, digital ethics, and active community participation.

Interdisciplinary connections

This project establishes key interdisciplinary connections across the BG subjects by integrating language learning with broader academic and artistic domains. In Lengua y Literatura, students treat oral narration as a literary form akin to radio chronicles, applying conventions for embedded community voices and indirect citations. Through Estudios Sociales, learners trace the local histories, migration patterns, and urban policies behind each exhibition piece, grounding their narrations in historical context. Educación Cultural y Artística connects students to curation, museography, and spatial arrangement, while Tecnologías de la Información y la Comunicación develops skills in audio editing, QR code generation, metadata management, and digital ethics. Additionally, discussions in Educación para la Ciudadanía address community language rights, informed consent, and civic responsibility, while Música enhances sound design by exploring voice register, pacing, silence, and ambient layering as essential compositional elements.

PROGRAMA PILOTO

Specific Competency	Assessment indicators
CE.EFL.5.3. Creative production of a short, informative video in English on a topic of collective interest, involving planning, recording, editing, and selecting sources, to communicate reliable information to diverse audiences through responsible digital communication. **CC, CIT, CD.**	**I.EFL.5.3.1**. Produce a short, informative video with a clear script, visual support, and at least one cited source, communicating accurate information on a topic of collective interest. **I.EFL.5.3.2.** Evaluate the credibility of at least two sources used in the video production, explaining the criteria applied (authorship, date, purpose, reliability). **I.EFL.5.3.3.** Present and justify creative and editorial decisions made during video production — topic selection, source choice, visual composition — using clear and purposeful English.

Knowledge		
Declarative	**Procedural**	**Ptitudinal**
EFL.5.2.d.5. Oral and multimodal genres: structured interview, personal anecdote, opinion presentation with visual support, audio guide, short video piece with voice-over, and vlog episode — their purpose, audience, and organisational conventions. **EFL.5.3.d.12**. Basic source evaluation criteria: authorship, institutional affiliation, date of publication, stated purpose, evidence quality, and potential bias — applicable to print and digital texts, including AI-generated content. **EFL.5.4.d.13**. Referencing and attribution conventions: in-text citation using simple formats (*Author, Year*), signal phrases for reported information, and the distinction between summary, paraphrase, and quotation.	**EFL.5.4.d.38**. Language-learning strategies: planning and goal-setting for a learning task; monitoring comprehension and production using checklists; self-correcting with grammar and vocabulary references; recording and recycling vocabulary through notebooks, flashcards, and spaced repetition; and reflecting on error patterns to set improvement goals. **EFL.5.1.p.1.** Identify the main idea and specific information in extended monologues, lectures, and talks on academic, cultural, and community topics, taking notes using keywords and phrases. **EFL.5.1.p.2.** Follow extended news programs, documentary sequences, and instructional videos in English, distinguishing main events or steps from background detail.	**EFL.5.4.a.15.** Demonstrate responsibility for one's own learning by completing tasks, meeting agreed-upon timelines, reflecting honestly on progress, and proactively seeking help when needed.

PROGRAMA PILOTO

EFL.5.2.d.23. Vocabulary: Clothes, Daily life, Education, Entertainment and media, Environment, Food and drink, Free time, Health medicine and exercise, Hobbies and leisure, House and home, Language, People, Personal feelings experiences and opinions, Personal identification, Places and buildings, Relations with other people, Services, Shopping, Social interaction, Sport, The natural world, Transport, Travel and holidays, Weather — with particular attention to collocations, dependent prepositions, and register variation within each field. **EFL.5.1.d.27.** Connected speech features: linking between words ending and beginning with consonants and vowels, consonant assimilation, elision of unstressed syllables, and weak forms of grammatical words (*to, for, of, and, was, can, have*). **EFL.5.3.d.32.** Media literacy principles: purpose, audience, bias, framing, and source credibility applied to journalistic articles, social media posts, advertising, and AI-generated content; the distinction between information, opinion, and misinformation. borrowed from others using simple attribution formats and basic license information.	**EFL.5.3.p.20.** Evaluate the basic credibility of a written or digital source using criteria of authorship, date, institutional affiliation, and stated purpose. **EFL.5.4.p.30.** Write video scripts for short, informative or community-oriented pieces, including stage directions, voice-over text, transition notes, and a clear call to action. **EFL.5.4.p.31.** Cite at least one source in written work using simple, consistent attribution formats (*e.g., According to …, Source: …, [Author, Year]*) and explain why the source is reliable. **EFL.5.4.p.34.** Integrate visuals and text in multimodal products (posters, digital publications, photo-essays, illustrated anthologies) so that each mode contributes meaningfully to the overall message. **EFL.5.4p.41.** Plan a language-learning task by setting a specific goal, selecting appropriate resources, and establishing steps and a time frame. **EFL.5.4.p.48.** Use AI tools ethically as a language-learning aid: acknowledge AI assistance in schoolwork, compare AI-generated responses with reliable sources, and avoid submitting AI-generated text as one's own. **EFL.5.3.p.49.** Evaluate the basic credibility of online sources using criteria of authorship, date, institutional affiliation, purpose, and evidence quality before using them in written or oral work. **EFL.5.4.p.50.** Respect intellectual property in school products: credit images, texts, sounds, and ideas.	

PROGRAMA PILOTO

Methodological guidlines

The methodology uses Project-Based Learning, inquiry, case-study analysis of contrasting reference videos, service learning, gamification, problem-based learning, and the flipped classroom to guide students in producing a four- to six-minute English informative video on a community topic chosen in assembly. Students practice research, scripting, recording, editing, source citation, and public posting under ethical standards of care, reciprocity, and consent. Using a four-beat structure, teams investigate local issues such as water reuse or food sovereignty, addressing editorial responsibility and voice framing. Students alternate through six key roles—topic researcher, scriptwriter, storyboarder-director, camera and sound operator, editor, and rubric reader—ensuring that every adolescent gains experience across all stages of production while developing critical media literacy, collaborative technical competence, and English communication skills.

Interdisciplinary connections

This project establishes key interdisciplinary connections across the BG subjects by grounding language learning in critical media production, local reality, and artistic expression. In Lengua y Literatura, students treat the four-beat script as a short non-fiction genre, applying conventions from documentary essays and radio features while practicing indirect citation. Through Estudios Sociales, learners investigate the historical, social, and political conditions surrounding their chosen topic—such as local policy, migration, or institutional change—ensuring their narration remains contextually grounded. Tecnologías de la Información y la Comunicación develops practical technical skills in camera handling, non-linear audio and video editing, captioning, alternative-text creation, and digital ethics. Additionally, Educación para la Ciudadanía fosters democratic reflection on the right to reliable information, media responsibility, and ethics of consent, while Educación Cultural y Artística explores documentary visual grammar, shot framing, pacing, and sound design as compositional tools.

PROGRAMA PILOTO

Specific Competency	Assessment indicators
CE.EFL.5.4. Transforming written input into oral instructions in English through reformulation, exemplification, and clarification to communicate procedures that support task completion and decision-making, recognizing the link between reading and speaking. **CC, CSE, CD.**	**I.EFL.5.4.1.** Reformulate key information from an English-language text as a set of clear oral instructions, using imperative forms, sequence connectors, and appropriate vocabulary for the topic. **I.EFL.5.4.2.** Explain a procedure or process read in English by providing at least one clarifying example and checking listener comprehension through follow-up questions. **I.EFL.5.4.3.** Summarize and paraphrase information from a written English source in spoken English, maintaining the essential meaning without copying phrases verbatim.

Knowledge		
Declarative	**Procedural**	**Atitudinal**
EFL.5.1.d.6. Discourse markers for spoken cohesion: sequencing (*first, then, finally, to begin with*), contrast (*however, on the other hand, although*), cause-result (*because of, as a result, therefore*), illustration (*for example, for instance, such as*), and reformulation (*in other words, I mean, what I'm trying to say is*). **EFL.5.1.d.15**. Modal verbs and their functions: *can/could* (ability, polite request, permission), *will/would* (future, polite request, deduction), *shall* (offer, suggestion), *should/ought to* (advice, expectation), *may/might* (possibility), *must/mustn't* (obligation, prohibition), *have (got) to* (external obligation), *need/needn't* (necessity, lack of necessity), and *used to + infinitive* (past habits).	**EFL.5.2.p.14.** Clarify and reformulate one's own statements and paraphrase what others have said to confirm understanding. **EFL.5.4.p.36.** Summarize the main ideas of an English-language text in Spanish (or vice versa) for a specific non-English-speaking audience, preserving the key information without adding opinion.	**EFL.5.2.a.2.** Demonstrate willingness to ask for and offer clarification without judgment, recognizing that incomplete understanding is a normal and productive part of language learning. **EFL.5.2.a.6.** Value linguistic and cultural diversity as a resource for collective understanding, and recognize plurilingualism as a continuous learning process rather than a destination.

PROGRAMA PILOTO

EFL.5.3.d.35. Contrastive linguistics of English: typological differences (word order, articles, null subject, periphrastic verbs), false friends, calques, syntactic transfer errors, and how awareness of these supports accuracy. **EFL.5.4.d.36.** Strategies for mediating texts and meaning between English: summarizing the main points of an English text for a non-English-speaking audience; paraphrasing to simplify or clarify; glossing key terms; and explaining culturally specific concepts.	**EFL.5.4.p.37.** Paraphrase a complex English statement or passage into simpler English or Spanish to clarify its meaning for a peer or community member. **EFL.5.4.p.38**. Gloss key terms — technical, cultural, or discipline-specific words — in English or Spanish so that a reader unfamiliar with the field can follow the text.	**EFL.5.4.a.12.** Value mediation — summarizing, paraphrasing, glossing, explaining — is a meaningful communicative act that bridges languages, cultures, and knowledge systems.

Methodological guidlines

This project relies on Project-Based Learning, task-based learning, jigsaw collaboration, peer teaching, problem-based learning, and the flipped classroom to guide students in converting everyday informative texts, such as weather reports or appliance manuals—into clear, actionable oral instructions in English. Students practice reading comprehension, inference, procedural scaffolding, and active listening to bridge communication gaps for audiences with varying literacy levels or specialized knowledge. Working with real-world scenarios, teams identify implicit steps and essential warnings, ensuring that knowledge becomes accessible and practical. Roles rotate continuously, reader, interpreter, instructor, listener-actor, and rubric reader, allowing every adolescent to experience all stages of textual analysis, procedural reorganization, oral delivery, and peer feedback while strengthening real-time English communication skills, critical thinking, and civic empathy.

Interdisciplinary connections

To address diverse student needs, the project offers tailored differentiation routes. Students with visual, hearing, attentional, or language differences engage through audio dossiers, LSEC signing, sentence frames, color-coded notes, micro-instructions, or pre-recorded deliveries. Advanced learners compare contrasting sources, convert non-procedural texts, shift registers, or anticipate questions. Simultaneously, cross-curricular BG connections strengthen key competencies: Lengua y Literatura addresses register shifts and indirect citations; Matemática reinforces spoken numerical literacy; Ciencias Naturales integrates applied science analogies; TIC fosters algorithmic procedural thinking and media recording; and Educación para la Ciudadanía promotes civic inclusion by making specialized technical knowledge accessible to the whole community.

PROGRAMA PILOTO

Specific Competency	Assessment indicators
CE.EFL.5.5. Interpreting culture by analyzing film trailers, identifying characters, conflicts, visual resources, and evaluative comments, to participate in discussions about cinema and understand how trailers generate expectations. CC, CECA, CCICC, CSE.	I.EFL.5.5.1. Describe the main characters, suggested conflicts, and visual and sound resources in a film trailer, using evaluative vocabulary and supporting the description with specific details. I.EFL.5.5.2. Infer and explain the genre, intended audience, and likely tone of a film from its trailer, justifying the inference with at least two pieces of textual or visual evidence. I.EFL.5.5.3. Compare two film trailers from different cultural contexts, evaluating the strategies each uses to create interest and identifying similarities and differences in their approach.

Knowledge		
Declarative	**Procedural**	**Atitudinal**
EFL.5.1.d.4. Nonverbal and paralinguistic resources in English-language communication: gestures, gaze, facial expressions, posture, proxemics, and their cultural variation across contexts. EFL.5.3.d.7. Journalistic and literary genres: the chronicle (narrative-informational hybrid), the magazine article, the review (film, book, place, or event), the opinion column with a thesis structure, and the short literary excerpt — their purposes, audiences, organisational patterns, and typical language features. EFL.5.4.d.20. Comparatives and superlatives (regular and irregular) with degree modifiers: much/far/a lot + comparative, not as ... as, not ... enough to, too ... to; intensifiers (very, quite, rather, extremely, fairly); and compound adjectives.	EFL.5.1.p.2. Follow extended news programs, documentary sequences, and instructional videos in English, distinguishing main events or steps from background detail. EFL.5.1.p.3.Understand TV programs, films, and online video content on familiar topics, identifying the setting, characters' stances, and the emotional tone of exchanges.	EFL.5.3.a.4. Show curiosity and openness toward the cultural practices, values, and perspectives of English-using communities.

PROGRAMA PILOTO

EFL.5.2.d.23. Vocabulary: Clothes, Daily life, Education, Entertainment and media, Environment, Food and drink, Free time, Health medicine and exercise, Hobbies and leisure, House and home, Language, People, Personal feelings experiences and opinions, Personal identification, Places and buildings, Relations with other people, Services, Shopping, Social interaction, Sport, The natural world, Transport, Travel and holidays, Weather — with particular attention to collocations, dependent prepositions, and register variation within each field. EFL.5.2.d.24. Word stress patterns in multisyllabic words: primary and secondary stress, stress-shifting pairs (record/record, present/present), and the effect of suffixes on stress placement (-tion, ic, -ity, -ify). EFL.5.3.d.28. Cultural diversity of English-using communities: language and cultural practices in the Philippines, Kenya, Tanzania, Aotearoa/New Zealand, Vietnam, India, Jamaica, Singapore, and Ireland — their histories with English, distinct voices, and contributions to global culture and knowledge.	EFL.5.4.p.26. Produce reviews of films, books, places, or events using the description-opinion-recommendation structure, evaluative vocabulary, and explicit criteria.	EFL.5.2.a.22. Show appreciation for the aesthetic and expressive possibilities of English — its rhythms, images, tones, and registers — as encountered in literature, music, film, and everyday language.

Methodological guidlines

These methodological guidelines apply Project-Based Learning and inquiry to analyze local and international film trailers right in the classroom. Working in teams with rotating roles—selector, describer, inferrer, discussant, and listener-recorder—students move through four practical stages: description and inference after group watchings; oral debate in English supported by printed guides and language banks; comparative and intercultural analysis contrasting Ecuadorian cinema with global films; and curation, organizing a small open forum for the school community.

Formative assessment happens daily through class journals, notebook entries, and a shared rubric measuring descriptive accuracy, inference skills, argumentation, and intercultural listening. Finally, summative assessment brings together the English working notebook, active participation in the debate, and performance during the final forum.

Interdisciplinary connections

On the interdisciplinary side, Lengua y Literatura addresses narrative structure and indirect citation; Educación Cultural y Artística examines audiovisual grammar (shot framing, editing, sound design); Estudios Sociales analyzes the distribution and asymmetries of global and local cinema; Educación para la Ciudadanía promotes ethical reasoning and respectful disagreement; and TIC supports annotation, analysis, and content sharing, democratizing access to critical knowledge.

PROGRAMA PILOTO

Specific Competency	Assessment indicators
CE.EFL.5.6. Develop argumentative communication by participating in short debates on everyday technologies, supported by reasons and examples, to evaluate different perspectives on technology's impact on daily life.	**I.EFL.5.6.1.** Participate in a short debate on an everyday technology topic, presenting a clear position supported by at least two reasons and one concrete example, using appropriate discourse markers. **I.EFL.5.6.2.** Evaluate the reasons and evidence offered by peers in a debate, expressing agreement or disagreement politely and explaining why a reason is convincing or insufficient. **I.EFL.5.6.3.** Begin to distinguish between factual claims and opinion-based arguments in a debate, identifying signal language that marks each type of statement.

Knowledge		
Declarative	**Procedural**	**Atitudinal**
EFL.5.2.d.1. Registers in spoken English — formal, semi-formal, and informal — and the vocabulary, intonation, and formulas that distinguish them across face-to-face, phone, and digital interactions. **EFL.5.2.d.2.** Turn-taking strategies in debates and group discussions: yielding, holding, and claiming the floor; backchanneling; managing interruptions politely; and signalling that one has finished speaking. **EFL.5.2.d.6.** Discourse markers for spoken cohesion: sequencing (first, then, finally, to begin with), contrast (however, on the other hand, although), cause-result (because of, as a result, therefore), illustration (for example, for instance, such as), and reformulation (in other words, I mean, what I'm trying to say is). **EFL.5.3.d.11.** Distinguishing facts from opinions in journalistic and informational texts: signal language (according to, it is reported that, in my view, I believe), hedging (might, may, could, seems to), and evaluative language (unfortunately, remarkably, clearly).	**EFL.5.1.p.1.** Identify the main idea and specific information in extended monologues, lectures, and talks on academic, cultural, and community topics, taking notes using keywords and phrases. **EFL.5.1.p.4.** Identify a speaker's attitude, opinion, and degree of certainty in interviews, debates, and discussions, using lexical and prosodic cues. **EFL.5.2.p.8**. Explain causes and consequences of social, environmental, or technological issues using Type 1 and Type 2 conditionals, modals, and cause-result connectors. **EFL.5.2.p.9.** Sustain an opinion on a familiar topic with at least two reasons and a concrete example, acknowledging a counterargument and responding to it.	**EFL.5.2.a.1.** Show genuine attention and respect when others are speaking in English by maintaining eye contact, using appropriate backchanneling, and waiting for natural pauses before responding.

PROGRAMA PILOTO

EFL.5.4.d.15. Modal verbs and their functions: can/ could (ability, polite request, permission), will/ would (future, polite request, deduction), shall (offer, suggestion), should/ought to (advice, expectation), may/might (possibility), must/mustn't (obligation, prohibition), have (got) to (external obligation), need/ needn't (necessity, lack of necessity), and used to + infinitive (past habits). **EFL.5.4.d.17.** Conditional sentences: Type 0 for scientific and universal truths; Type 1 (If + present simple + will) for real future possibilities; Type 2 (If + past simple + would) for hypothetical or counterfactual situations, including "If I were you". **EFL.5.1.d.26**. Intonation patterns and their communicative values: falling intonation in statements and wh-questions; rising intonation in yes/no questions, lists (except the final item), and tag questions expecting confirmation; and fall-rise for implication and doubt. **EFL.5.3.d.30.** Global issues: climate change and environmental responsibility, gender equality and non-discrimination, migration and belonging, digital rights and algorithmic bias, and youth civic engagement.	**EFL.5.2.p.11.** Participate actively in debates and structured discussions, agreeing and disagreeing politely, using discourse markers (I see what you mean, but ...; That's a good point, however ...), and supporting positions with reasons. **EFL.5.2.p.15.** Use turn-taking signals effectively: backchanneling, holding the floor, yielding, politely interrupting, and managing overlapping speech in group discussions.	**EFL.5.3.a.7**. Engage with global issues — climate change, gender equality, migration, digital rights — through English with a commitment to informed, respectful, and constructive participation.

PROGRAMA PILOTO

Methodological guidlines
These methodological guidelines apply Project-Based Learning, Problem-Based Learning, and inquiry to debate in English the impact of everyday technologies from the Ecuadorian context, ranging from agricultural tools to household goods. Working in face-to-face teams with five rotating roles (proposer, respondent, moderator, fact-checker, and glossarist), students conduct small field investigations, analyze product labels, and build printed banks of connectors, conditionals, and modals. Through structured oral debates, they develop ethical reasoning, intonation, and active listening within the framework of the core product, "The Everyday Technology Roundtable." Formative assessment relies on class journals, working notebooks, and shared rubrics focusing on turn-taking and evidence, while summative assessment evaluates the English working notebook, active participation in the in-person debate, and fluency during the final roundtable.
Interdisciplinary connections
In the interdisciplinary realm, Ciencias Naturales addresses the chemistry of preservatives, the physics of engines or stoves, the biology of consumption, and the ecology of waste in local rivers; Matemática fosters household numerical literacy by analyzing costs, performance, and daily consumption percentages; Estudios Sociales examines supply chains, informal markets, and the local economy to understand who bears the costs of each technology; Educación para la Ciudadanía promotes respectful disagreement, fact-checking, and the civic value of revising one's opinion during a debate; and TIC drives the critical use of digital tools and artificial intelligence to audit sources, edit recordings, and reflect on learning.

PROGRAMA PILOTO

Specific Competency	Assessment indicators
CE.EFL.5.7. Producing video news reports on relevant community events through planning, recording, and guided editing to communicate local perspectives to wider audiences and recognize the value of sharing community narratives. **CC, CD, CIT, CCICC, CECA.**	**I.EFL.5.7.1.** Plan and produce a short video news piece (1–3 minutes) on a community event, including an introduction, key information (who, what, when, where, why), at least one community voice, and a closing statement. **I.EFL.5.7.2.** Describe and justify the editorial decisions made in the video news piece — camera perspective, content selection, language register — in relation to the intended audience. **I.EFL.5.7.3.** Evaluate the effectiveness of the video news piece against criteria of accuracy, clarity, community representation, and audience appeal, using a simple rubric.

Knowledge		
Declarative	**Procedural**	**Atitudinal**
EFL.5.2.d.5. Oral and multimodal genres: structured interview, personal anecdote, opinion presentation with visual support, audio guide, short video piece with voice-over, and vlog episode — their purpose, audience, and organisational conventions. **EFL.5.4.d.14.**Verb tenses for narrating and reporting: present simple for habits, states, and timeless truths; present continuous for current actions and future arrangements; present perfect simple with *just, already, yet, ever, never, for, since*; past simple for completed events; past continuous for background actions; past perfect simple for events before a past reference point; future with *will*, *going to*, and *shall*; and *was/were going to* for unfulfilled intentions.	**EFL.5.1.p.2.** Follow extended news programs, documentary sequences, and instructional videos in English, distinguishing main events or steps from background detail. **EFL.5.2.p.5.** Give a structured oral presentation on an academic or community topic, using visual aids and clearly organising information into an introduction, main points, and a conclusion. **EFL.5.2.p.7.** Recount events chronologically using past tenses, time markers, and sequence connectors, distinguishing background information from the main events. **EFL.5.2.p.12.** Conduct and respond to interviews, asking follow-up questions, requesting clarification, reformulating answers, and using active listening strategies.	**EFL.5.3.a.17.** Value self-assessment and peer assessment as fair and useful tools for learning, engaging with them honestly and constructively. **EFL.5.2.a.20**. Value local knowledge, ancestral practices, and community voices as sources of insight and wisdom worth documenting and sharing in English.

PROGRAMA PILOTO

EFL.5.1.d.25. Sentence stress, rhythm, and timing in English as a stress-timed language: nuclear stress on new information, contrastive stress for emphasis, and the reduction of unstressed syllables in natural speech. **EFL.5.1.d.27**. Connected speech features: linking between words ending and beginning with consonants and vowels, consonant assimilation, elision of unstressed syllables, and weak forms of grammatical words (*to, for, of, and, was, can, have*). **EFL.5.2.d.31.** Local Ecuadorian culture, heritage, and identity expressed in English: natural landscapes, ancestral knowledge, community traditions, Afro-Ecuadorian and Indigenous voices, and the principle of *Sumak Kawsay / Buen Vivir* as a framework for sustainable living. **EFL.5.2.d.34.** Environmental and community responsibility expressed in English: vocabulary for describing environmental actions; concepts of the rights of nature and *Sumak Kawsay;* and participation in cause-driven school and community projects. **EFL.5.3.d.37**. Self-assessment and peer assessment in language learning: rubric criteria for spoken and written production at B1; consolidated error analysis; constructive feedback language; and the distinction between accuracy, fluency, and range.	**EFL.5.4.p.30.** Write video scripts for short, informative or community-oriented pieces, including stage directions, voice-over text, transition notes, and a clear call to action. **EFL.5.2.p.39**. Act as an informal interpreter for short exchanges in school or community contexts, facilitating communication between English and Spanish speakers with accuracy and respect. **EFL.5.3.p.41**. Plan a language-learning task by setting a specific goal, selecting appropriate resources, and establishing steps and a time frame. **EFL.5.4.p.52.** Write, record, or publish school products responsibly, asking for permission before including another person's image, voice, or work and recognizing the importance of ethical representation.	**EFL.5.2.a.24**. Engage with artistic and multimodal production — vlogs, photo-essays, audio guides, illustrated anthologies — as expressive acts that contribute one's own voice to a shared cultural record.

PROGRAMA PILOTO

Methodological guidlines

These methodological guidelines draw on Project-Based Learning, Task-Based Learning, and inquiry to produce English news reports on real events from local Ecuadorian communities (parishes, neighborhoods, or cities). Working in teams with four rotating roles (reporter, field producer, camera-and-edit, and fact-checker-and-translator), students move through four key stages: pitching the story with a unique angle; gathering and verifying sources through face-to-face interviews; scriptwriting and recording using reported speech and cause-and-effect connectors at a B1 English level; and editing, community screening, and ethical publishing. Formative assessment tracks progress using class journals and peer evaluation with a five-criterion rubric, while summative assessment evaluates the final video report, an editorial decisions memo, and individual logbooks.

Interdisciplinary connections

In the interdisciplinary realm, Estudios Sociales addresses local civic and political vocabulary (municipal council, public hearings, citizen assemblies) to explain them in English to external audiences; Lengua y Literatura analyzes journalistic structure by comparing texts in Spanish and English to translate news stories without compromising objectivity; Educación para la Ciudadanía promotes journalistic ethics, informed consent, fact-checking, and social responsibility when publishing; TIC drives the use of digital editing tools, the grammar of audiovisual editing (J-cuts and L-cuts), and transparency in the use of artificial intelligence; and Artes contributes to visual framing and design, applying principles of composition to enrich the report's narrative language.

PROGRAMA PILOTO

Specific Competency	Assessment indicators
CE.EFL.5.8. Producing a short video blog on local historical heritage through on-site recording and narration to present how heritage is experienced and valued within the community and to strengthen awareness of local identity. CC, CMCT, CIT, CECA.	**I.EFL.5.8.** Produce a short video blog episode (1–3 minutes) on a local heritage site or tradition, using voice-over narration, on-site recording or images, and at least one community perspective. **I.EFL.5.8.2.** Recount and explain the historical significance of a local place, object, or tradition in English, using past tenses, discourse markers, and heritage vocabulary accurately. **I.EFL.5.8.3.** Recommend the heritage video blog to a peer audience, explaining what they will learn and why the topic is worth knowing, using persuasive and evaluative language.

Knowledge		
Declarative	**Procedural**	**Atitudinal**
EFL.5.2.2.d.5. Oral and multimodal genres: structured interview personal anecdote, opinion presentation with visual support, audio guide, short video piece with voice-over, and vlog episode — their purpose, audience, and organisational conventions. **EFL.5.2.2.d.6.** Discourse markers for spoken cohesion: sequencing (*first, then, finally, to begin with*), contrast (*however, on the other hand, although*), cause-result (*because of, as a result, therefore*), illustration (*for example, for instance, such as*), and reformulation (*in other words, I mean, what I'm trying to say is*). **EFL.5.2.d.14**.Verb tenses for narrating and reporting: present simple for habits, states, and timeless truths; present continuous for current actions and future arrangements; present perfect simple with *just, already, yet, ever, never, for, since*; past simple for completed events; past continuous for background actions; past perfect simple for events before a past reference point; future with *will*, *going to*, and *shall*; and *was/were going to* for unfulfilled intentions.	**EFL.5.2.p.5.** Give a structured oral presentation on an academic or community topic, using visual aids and clearly organising information into an introduction, main points, and a conclusion. **EFL.5.2.p.6.** Describe experiences, memories, dreams, and future ambitions using a range of tenses, discourse markers, and evaluative vocabulary. **EFL.5.2.p.7.** Recount events chronologically using past tenses, time markers, and sequence connectors, distinguishing background information from the main events. **EFL.5.1.p.12.** Conduct and respond to interviews, asking follow-up questions, requesting clarification, reformulating answers, and using active listening strategies. **EFL.5.4.p.25.** Write autobiographical narratives and biographical texts using first- or third-person narration, past tense, chronological organization, and evaluative reflection on events.	**EFL.5.2.a.20.** Value local knowledge, ancestral practices, and community voices as sources of insight and wisdom worth documenting and sharing in English.

PROGRAMA PILOTO

EFL.5.1.2.d.21. Noun phrase complexity: singular/plural (regular and irregular), countable/uncountable with *some/any*, abstract nouns, compound nouns, complex noun phrases, genitive (*'s, s'*, double genitive), and relative clauses with *who, which, and that*. **EFL.5.2.d.31.** Local Ecuadorian culture, heritage, and identity expressed in English: natural landscapes, ancestral knowledge, community traditions, Afro-Ecuadorian and Indigenous voices, and the principle of *Sumak Kawsay / Buen Vivir* as a framework for sustainable living.	**EFL.5.4.p.29.** Produce captions and accompanying text for photo essays and vlogs that integrate visual and written information coherently, citing sources and crediting contributors. **EFL.5.4.p.30.** Write video scripts for short, informative or community-oriented pieces, including stage directions, voice-over text, transition notes, and a clear call to action. **EFL.5.1.p.40.** Mediate cultural concepts — practices, values, or references specific to one culture — across two cultural contexts, explaining their meaning and significance to an audience unfamiliar with them. **EFL.5.2.p.47**. Use English to participate in local and global cause-driven projects — anti-discrimination campaigns, environmental initiatives, heritage documentation — contributing written and spoken texts to shared community purposes. **EFL.5.4.p.52.** Write, record, or publish school products responsibly, asking for permission before including another person's image, voice, or work and recognizing the importance of ethical representation.	**EFL.5.2.a.24.** Engage with artistic and multimodal production — vlogs, photo-essays, audio guides, illustrated anthologies — as expressive acts that contribute one's own voice to a shared cultural record.

PROGRAMA PILOTO

Methodological guidlines
To develop this competency, students engage in a Project-Based Learning process through the creation of the video blog series “Heritage in Our Voice”, where they explore tangible and intangible cultural heritage from their communities. The learning process begins with empathy interviews and field experiences that allow students to identify the meanings, memories, and values connected to a heritage element. Through research, observation, and collaboration with community members, learners develop oral and written texts in English using appropriate structures, vocabulary, and discourse markers to narrate, describe, and recommend. Students create scripts, record voice-overs, conduct interviews, and produce multimodal content that integrates images, captions, and cultural explanations. Peer feedback circles support revision and reflection, promoting respectful representation, ethical communication, and appreciation of local knowledge and diverse cultural voices.
Interdisciplinary connections
Social Studies connects through the exploration of local heritage, community practices, and the ways societies preserve collective memory. Language and Literature contributes by analyzing oral histories, testimonies, and the transformation of spoken narratives into written and audiovisual texts while respecting the original voice. Citizenship Education develops reflection on the rights of communities, permission, respectful representation, and the responsibility of sharing cultural knowledge. Information and Communication Technologies supports the creation, editing, and responsible publication of digital products, including ethical use of technological tools. Arts connects through visual composition, sound, framing, and creative decisions that communicate heritage with respect and sensitivity.

PROGRAMA PILOTO

Specific Competency	Assessment indicators
CE.EFL.5.9. Collectively organizing an English-language song recital, including role assignment, transitions, and rehearsal, to participate in a cultural school event and recognize music as a form of shared expression. CECA, CIT, CSE.	**I.EFL.5.9.1.** Write and deliver a short MC introduction or transition script for a school music performance in English, using appropriate register, complete sentences, and natural rhythm. **I.EFL.5.9.2.** Describe and explain the cultural origin, theme, or significance of a song in English selected for the recital, connecting it to the broader topic or cultural context of the event. **I.EFL.5.9.** Cooperate with peers in rehearsing and refining spoken and performed contributions to the recital, offering and incorporating feedback on delivery, pronunciation, and timing.

Knowledge		
Declarative	**Procedural**	**Atitudinal**
EFL.5.2.d.1. Registers in spoken English — formal, semi-formal, and informal — and the vocabulary, intonation, and formulas that distinguish them across face-to-face, phone, and digital interactions. EFL.5.1.d.3. Prosodic features used for emphasis and contrast: sentence stress on key information, contrastive stress, rising and falling intonation in statements and different question types, and intonation in tag questions and lists. EFL.5.1.d.4. Nonverbal and paralinguistic resources in English-language communication: gestures, gaze, facial expressions, posture, proxemics, and their cultural variation across contexts. EFL.5.1.d.25. Sentence stress, rhythm, and timing in English as a stress-timed language: nuclear stress on new information, contrastive stress for emphasis, and the reduction of unstressed syllables in natural speech.	EFL.5.3.p.22. Read short literary excerpts — stories, autobiographical fragments, song lyrics — and identify themes, narrative voice, setting, and the ways the author creates meaning.	EFL.5.2.a.3. Value the contributions of all group members regardless of English proficiency level, encouraging quieter voices and creating space for everyone to participate. EFL.5.3.a.22. Show appreciation for the aesthetic and expressive possibilities of English — its rhythms, images, tones, and registers — as encountered in literature, music, film, and everyday language.

PROGRAMA PILOTO

EFL.5.1.d.26. Intonation patterns and their communicative values: falling intonation in statements and wh-questions; rising intonation in yes/no questions, lists (except the final item), and tag questions expecting confirmation; and fall-rise for implication and doubt. EFL.5.1.d.28. Cultural diversity of English-using communities: language and cultural practices in the Philippines, Kenya, Tanzania, Aotearoa/New Zealand, Vietnam, India, Jamaica, Singapore, and Ireland — their histories with English, distinct voices, and contributions to global culture and knowledge.		EFL.5.4.a.24. Engage with artistic and multimodal production — vlogs, photo-essays, audio guides, illustrated anthologies — as expressive acts that contribute one's own voice to a shared cultural record.

Methodological guidlines

To develop this competency, the learning process begins with the exploration of English songs from different cultural contexts, recognizing that each song carries a voice, history, rhythm, and identity. Through reading lyrics, listening to performances, and analyzing pronunciation, stress, intonation, and expressive features, students understand that singing in English requires interpretation and cultural awareness. The methodology is based on Project-Based Learning (PBL) through the project "Songs in Our Voice: a pluricentric recital", where teams prepare a public musical presentation. Students rotate roles as MC, vocalist, musical director, and stage producer, developing oral communication, reading comprehension, collaboration, and appreciation of diverse English-speaking communities. The process includes lyric analysis, rehearsal, script writing, peer feedback, and a final recital where students share songs respectfully with the school community.

Interdisciplinary connections

The development of this competency connects English learning with different areas of knowledge through the preparation of the musical recital. Language and Literature contributes through the reading and interpretation of song lyrics as literary texts, recognizing verses, refrains, meanings, and the relationship between written language and oral performance. Music supports the understanding of rhythm, tempo, melody, pronunciation, and expressive elements that influence vocal interpretation. Social Studies allows students to explore the historical and cultural contexts of songs from diverse English-speaking communities, valuing their origins and voices. Citizenship Education promotes ethical and respectful representation by recognizing authorship, cultural identity, and diversity. Arts Education strengthens creativity through stage design, performance, visual expression, and the organization of a collective artistic experience that values multiple cultural perspectives.

PROGRAMA PILOTO

Specific Competency	Assessment indicators
CE.EFL.5.10. Reading short journalistic chronicles in English on social, cultural, and environmental topics comprehensively, identifying narrative voice, sources, and perspectives to understand journalism as both information and narrative construction. **CMCT, CC, CCICC.**	**I.EFL.5.10.1**. Identify and describe the narrative voice, main scenes, cited sources, and perspectives included in a journalistic chronicle in English, explaining how each element contributes to the overall meaning. **I.EFL.5.10.2.** Infer the author's purpose and stance in a chronicle, distinguishing factual reporting from evaluative commentary using signal language and evidence from the text. **I.EFL.5.10.3.** Compare two short chronicles on related topics from different cultural contexts, evaluating the similarities and differences in their narrative approach, sources consulted, and perspectives foregrounded. **I.EFL.5.10.4**. Synthesize the main ideas of a chronicle in a short, written paragraph, preserving the essential information without copying phrases verbatim and attributing the source.

Knowledge		
Declarative	**Procedural**	**Atitudinal**
EFL.5.3.d.7. Journalistic and literary genres: the chronicle (narrative-informational hybrid), the magazine article, the review (film, book, place, or event), the opinion column with a thesis structure, and the short literary excerpt — their purposes, audiences, organisational patterns, and typical language features. **EFL.5.3.d.9**. Text organisation principles: introduction-body-conclusion structure, paragraph unity and development, cohesive devices (reference, substitution, conjunction, lexical chains), and the role of topic sentences and supporting details. **EFL.5.3.d.11**. Distinguishing facts from opinions in journalistic and informational texts: signal language (*according to, it is reported that, in my view, I believe*), hedging (*might, may, could, seems to*), and evaluative language (*unfortunately, remarkably, clearly*).	**EFL.5.3.p.16.** Read journalistic chronicles, magazine articles, and online blogs, identifying the main idea, supporting details, and the author's purpose and stance. **EFL.5.3.p.17**. Infer the meanings of unknown words and implied meanings from context clues, textual organization, and prior knowledge. **EFL.5.3.p.18**. Identify and evaluate the author's purpose, point of view, and use of evidence in informational and argumentative texts. **EFL.5.3.p.19**. Begin to distinguish facts from opinions in news reports, opinion columns, and reviews, using signal language and hedging markers as guides.	**EFL.5.3.a.8.** Demonstrate interest in reading a variety of English-language texts — literary, journalistic, scientific, multimodal — beyond those assigned in class.

PROGRAMA PILOTO

EFL.5.4.d.14. Verb tenses for narrating and reporting: present simple for habits, states, and timeless truths; present continuous for current actions and future arrangements; present perfect simple with *just, already, yet, ever, never, for, since*; past simple for completed events; past continuous for background actions; past perfect simple for events before a past reference point; future with *will*, *going to*, and *shall*; and *was/were going to* for unfulfilled intentions. **EFL.5.4.d.19.** Connectors and discourse markers for written cohesion: contrast (*however, although, whereas, while, on the other hand*), cause (*because, since, as, due to*), result (*therefore, as a result, so, consequently*), addition (*in addition, furthermore, moreover*), exemplification (*for example, for instance, such as*), concession (*even though, despite, despite*), and condition (*if, unless, provided that*). **EFL.5.4.d.21**. Noun phrase complexity: singular/plural (regular and irregular), countable/uncountable with *some/any*, abstract nouns, compound nouns, complex noun phrases, genitive (*'s, s'*, double genitive), and relative clauses with *who, which, and that*. **EFL.5.3.d.32**. Media literacy principles: purpose, audience, bias, framing, and source credibility applied to journalistic articles, social media posts, advertising, and AI-generated content; the distinction between information, opinion, and misinformation.	**EFL.5.3.p.21**. Synthesize information across two short texts on the same topic, identifying shared ideas, differences in framing, and points of complementarity. **EFL.5.4.p.23.** Compose journalistic chronicles that integrate narrative and informational elements, include scene-setting, a narrative voice, sources, and a conclusion that connects the event to a broader issue.	**EFL.5.3.a.9.** Show persistence in navigating unfamiliar texts by using context clues, inference, and available resources rather than immediately seeking a translation.

PROGRAMA PILOTO

Methodological guidlines

To develop this competency, the learning process begins with the comparison of journalistic reports and chronicles, allowing students to recognize how each genre constructs meaning, purpose, and perspective. Through close reading, learners identify narrative voice, organization, sources, facts, opinions, and the author's position, using textual evidence to interpret messages critically. The methodology is based on Project-Based Learning (PBL) through the project "Two Chronicles, One Question: a comparative dossier of journalistic chronicles in English", supported by reading workshops and inquiry-based learning. Students work collaboratively in roles such as close reader, source tracer, comparative annotator, and synthesis writer. The process includes text analysis, source verification, comparison of perspectives, and creation of a final dossier that communicates findings to a real school audience while strengthening critical reading and responsible information use.

Interdisciplinary connections

Language and Literature contributes to understanding the chronicle as a literary nonfiction genre, recognizing narrative voice, structure, dialogue, description, and the relationship between literary resources and informative purposes. Social Studies allows students to analyze historical, social, and political contexts behind the events reported, understanding that texts are connected to real communities and realities. Citizenship Education strengthens ethical reading practices by promoting source verification, respect for testimonies, and responsible circulation of information. Information and Communication Technologies supports the use of digital tools for research, source validation, and media literacy. Mathematics contributes through the interpretation of statistics, percentages, and data presented in journalistic texts, fostering critical analysis of evidence.

PROGRAMA PILOTO

Specific Competency	Assessment indicators
CE.EFL.5.11. Developing socio-emotional awareness by reading short magazine articles on adolescent-related topics, identifying perspectives, experiences, and testimonies, and relating personal well-being to social conditions. **CC, CCICC, CSE.**	**I.EFL.5.11.1**. Identify and explain the different perspectives, personal experiences, and testimonies included in a magazine article on an adolescent well-being topic, connecting them to the article's main argument. **I.EFL.5.11.2.** Infer the emotional tone and intended audience of a socio-affective article, supporting the inference with specific vocabulary and structural choices from the text. **I.EFL.5.11.3.** Express and justify an opinion on the topic of a magazine article, comparing one's own perspective with those of the people quoted in the text.

Knowledge		
Declarative	**Procedural**	**Atitudinal**
EFL.5.3.d.7. Journalistic and literary genres: the chronicle (narrative-informational hybrid), the magazine article, the review (film, book, place, or event), the opinion column with a thesis structure, and the short literary excerpt — their purposes, audiences, organisational patterns, and typical language features. **EFL.5.3.d.10.** Reading strategies for extended texts: skimming for the gist, scanning for specific information, activating prior knowledge and making predictions, inferring meaning from context clues, identifying the main idea versus supporting details, and recognising the text type and the author's purpose. **EFL.5.4.d.19.** Connectors and discourse markers for written cohesion: contrast (*however, although, whereas, while, on the other hand*), cause (*because, since, as, due to*), result (*therefore, as a result, so, consequently*), addition (*in addition, furthermore, moreover*), exemplification (*for example, for instance, such as*), concession (*even though, despite, despite*), and condition (*if, unless, provided that*).	**EFL.5.4.p.6.** Describe experiences, memories, dreams, and future ambitions using a range of tenses, discourse markers, and evaluative vocabulary. **EFL.5.2.p.9**. Sustain an opinion on a familiar topic with at least two reasons and a concrete example, acknowledging a counterargument and responding to it. **EFL.5.2.p.11.** Participate actively in debates and structured discussions, agreeing and disagreeing politely, using discourse markers (*I see what you mean, but ...; That's a good point, however ...*), and supporting positions with reasons.	**EFL.5.3.a.5**. Recognize and reject cultural stereotypes and unfair representations in texts and media, and name the harm they can cause to communities and individuals. **EFL.5.3.a.8.** Demonstrate interest in reading a variety of English-language texts — literary, journalistic, scientific, multimodal — beyond those assigned in class.

PROGRAMA PILOTO

EFL.5.4.d.21. Noun phrase complexity: singular/plural (regular and irregular), countable/uncountable with some/any, abstract nouns, compound nouns, complex noun phrases, genitive ('s, s', double genitive), and relative clauses with who, which, and that. **EFL.5.4.d.22**. Verb complementation patterns: infinitive with and without to after verbs and adjectives; gerund after verbs and prepositions; gerund as subject or object; phrasal verbs and verbs with prepositions; and verb + object + infinitive patterns (give/take/send + direct/indirect object). **EFL.5.3.d.23**. Vocabulary: Clothes, Daily life, Education, Entertainment and media, Environment, Food and drink, Free time, Health medicine and exercise, Hobbies and leisure, House and home, Language, People, Personal feelings experiences and opinions, Personal identification, Places and buildings, Relations with other people, Services, Shopping, Social interaction, Sport, The natural world, Transport, Travel and holidays, Weather — with particular attention to collocations, dependent prepositions, and register variation within each field. **EFL.5.3.d.29.** Intercultural awareness in communication: politeness norms, register expectations, taboo or sensitive topics, and the cultural specificity of humour, indirectness, and non-verbal behaviour **EFL.5.3.d.30.** Global issues: climate change and environmental responsibility, gender equality and non-discrimination, migration and belonging, digital rights and algorithmic bias, and youth civic engagement.	**EFL.5.3.p.16.** Read journalistic chronicles, magazine articles, and online blogs, identifying the main idea, supporting details, and the author's purpose and stance. **EFL.5.4.p.43**. Record and recycle new vocabulary systematically using vocabulary notebooks, flashcard systems, and spaced repetition, organizing entries by topic, collocations, and example sentences.	**EFL.5.3.a.10.** Value the act of reading as a way to encounter different lives, perspectives, and questions, and recognize literature as both a mirror and a window for understanding one's own experience and that of others.

PROGRAMA PILOTO

Methodological guidlines

El desarrollo de esta competencia se orienta mediante el aprendizaje basado en proyectos (ABP) y la lectura dialógica, donde los estudiantes analizan artículos de revistas en inglés relacionados con el bienestar adolescente desde una perspectiva crítica y empática. A través de lecturas guiadas, comparación de textos y estrategias como identificación de ideas principales, reconocimiento de evidencias, diferenciación entre hechos y opiniones, y análisis del propósito comunicativo, los estudiantes construyen significado considerando el contexto social y cultural de los textos. El trabajo colaborativo permite explorar vocabulario relacionado con experiencias personales, emociones, comunidad y problemáticas globales, promoviendo el respeto por diversas realidades. La elaboración de un archivo de lectura sobre bienestar fortalece la producción escrita, la argumentación y la capacidad de recomendar textos a otros lectores de manera responsable.

Interdisciplinary connections

English connects with Lengua y Literatura because students approach the magazine article as a hybrid genre between journalism and literary nonfiction, analyzing its lead, testimonies, writer's voice, and closing purpose. It connects with Estudios Sociales because reading these articles requires understanding the social conditions behind adolescent experiences, such as health services, housing, family responsibilities, and school contexts. English connects with Educación para la Ciudadanía through the ethical reading and circulation of testimonies, emphasizing respect for privacy, accurate representation, and responsible communication. It connects with Tutoría y orientación educativa by supporting the reading process through guidance, referral procedures, and teacher awareness. Finally, English connects with Educación Física y para la salud by interpreting the physical aspects presented in the articles, such as sleep, breathing, and changes in appetite, within the context of adolescent well-being.

PROGRAMA PILOTO

Specific Competency	Assessment indicators
CE.EFL.5.12. Collaboratively interpreting flowcharts for project planning, identifying stages, decisions, and outcomes, to understand and discuss collective processes and to recognize planning as a shared practice. **CMCT, CD, CSE, CIT, CCICC.**	**I.EFL.5.12.1**. Identify and explain the stages, decision points, and expected outcomes in a flowchart for a collective project, using vocabulary for planning and sequencing. **I.EFL.5.12.2.** Describe a project plan represented in a flowchart to a peer, rephrasing the steps in spoken English and responding to follow-up questions about the process. **I.EFL.5.12.3.** Evaluate the completeness and clarity of a flowchart by identifying any missing steps or ambiguous decision points and suggesting improvements.

Knowledge		
Declarative	**Procedural**	**Atitudinal**
EFL.5.2.d.1. Registers in spoken English — formal, semi-formal, and informal — and the vocabulary, intonation, and formulas that distinguish them across face-to-face, phone, and digital interactions. EFL.5.2.d.2. Turn-taking strategies in debates and group discussions: yielding, holding, and claiming the floor; backchanneling; managing interruptions politely; and signalling that one has finished speaking.	EFL.5.2.p.10. Open, maintain, and close conversations in semi-formal contexts — introductions, service encounters, school or community meetings — using appropriate formulas and register. EFL.5.2.p.11. Participate actively in debates and structured discussions, agreeing and disagreeing politely, using discourse markers (I see what you mean, but ...; That's a good point, however ...), and supporting positions with reasons. EFL.5.2.p.13. Negotiate plans and services, expressing preferences, suggesting alternatives, and reaching agreements using modal verbs and conditional structures. EFL.5.2.p.14. Clarify and reformulate one's own statements and paraphrase what others have said to confirm understanding.	EFL.5.2.a.1. Show genuine attention and respect when others are speaking in English by maintaining eye contact, using appropriate backchanneling, and waiting for natural pauses before responding. EFL.5.2.a.2. Demonstrate willingness to ask for and offer clarification without judgment, recognizing that incomplete understanding is a normal and productive part of language learning.

PROGRAMA PILOTO

EFL.5.2.d.36. Strategies for mediating texts and meaning: summarizing the main points of an English text for a non-English-speaking audience; paraphrasing to simplify or clarify; glossing key terms; and explaining culturally specific concepts.	EFL.5.2.p.15. Use turn-taking signals effectively: backchanneling, holding the floor, yielding, politely interrupting, and managing overlapping speech in group discussions. EFL.5.2.p.37. Paraphrase a complex English statement or passage into simpler English or Spanish to clarify its meaning for a peer or community member. EFL.5.2.p.39. Act as an informal interpreter for short exchanges in school or community contexts, facilitating communication between English and Spanish speakers with accuracy and respect. EFL.5.2.p.51. Cooperate respectfully in pairs and groups: take turns, listen actively, give and receive constructive feedback, and help peers express their ideas.	EFL.5.2.a.3. Value the contributions of all group members regardless of English proficiency level, encouraging quieter voices and creating space for everyone to participate. EFL.5.2.a.11. Demonstrate empathy toward peers and community members who use English differently, supporting rather than correcting in ways that discourage participation.

Methodological guidlines

The development of this competency is guided through Project-Based Learning (PBL), where students interpret flowcharts in English as technical texts that organize processes, responsibilities, timelines, and decisions within collective projects. Through visible thinking routines such as I see, I think, I wonder and connect, extend, challenge, students carry out detailed readings by identifying the function of shapes, arrows, connectors, verbs, modal verbs, and conditional structures. Collaborative work allows students to analyze how flowcharts synthesize actions and distribute responsibilities through rotating roles such as shape reader, language reader, process reader, and synthesis reader. Likewise, students are encouraged to critically interpret flowcharts, recognizing what they communicate and the elements that require other community records. These activities strengthen the functional use of English in contexts of planning, digital collaboration, and community participation.

Interdisciplinary connections

The cluster connects English with Mathematics by interpreting flowcharts as structured representations of processes through sequence, branching, iteration, and closure, using precision to analyze whether the chart's visual organization effectively communicates the team's plan. It connects with Social Studies by examining flowcharts as one way communities record decisions alongside other forms such as assembly minutes, oral records, cooperative books, and neighborhood calendars. It connects with Citizenship Education by reflecting on the civic dimensions represented in a chart, including participation, responsibility distribution, inclusion, and the decisions behind what is represented or omitted. It connects with Arts Education by recognizing the visual design elements of flowcharts, such as clarity, proportion, and organization. Finally, it connects with Information Technology through the use of shared digital documents, collaborative tools, swimlane templates, tactile charts, and accessible digital formats for responsible communication and teamwork.

PROGRAMA PILOTO

Specific Competency	Assessment indicators
CE.EFL.5.13. Developing critical awareness of digital tools by reading texts on the ethical use of artificial intelligence and language models, identifying guidelines and recommendations, and fostering responsible, informed use of digital technologies. **CD, CC, CMCT, CIT.**	**I.EFL.5.13.1**. Identify and explain the main criteria and recommendations in an English-language text on the ethical use of AI tools, distinguishing factual claims from opinions or value judgments. **I.EFL.5.13.2**. Evaluate a given example of AI tool use in a school context against criteria of honesty, attribution, and reliability, explaining whether the use is responsible and why. **I.EFL.5.13.3.** Express and justify a nuanced personal position on the use of AI in language learning, acknowledging both potential benefits and risks with supporting reasons.

Knowledge		
Declarative	**Procedural**	**Atitudinal**
EFL.5.3.d.10. Reading strategies for extended texts: skimming for the gist, scanning for specific information, activating prior knowledge and making predictions, inferring meaning from context clues, identifying the main idea versus supporting details, and recognising the text type and the author's purpose **EFL.5.3.d.11**. Distinguishing facts from opinions in journalistic and informational texts: signal language (*according to, it is reported that, in my view, I believe*), hedging (*might, may, could, seems to*), and evaluative language (*unfortunately, remarkably, clearly*). **EFL.5.3.d.12**. Basic source evaluation criteria: authorship, institutional affiliation, date of publication, stated purpose, evidence quality, and potential bias — applicable to print and digital texts, including AI-generated content.	**EFL.5.1.p.8**. Explain causes and consequences of social, environmental, or technological issues using Type 1 and Type 2 conditionals, modals, and cause-result connectors. **EFL.5.2.p.9.** Sustain an opinion on a familiar topic with at least two reasons and a concrete example, acknowledging a counterargument and responding to it. **EFL.5.3.p.17.** Infer the meanings of unknown words and implied meanings from context clues, textual organization, and prior knowledge. **EFL.5.3.p.18**. Identify and evaluate the author's purpose, point of view, and use of evidence in informational and argumentative texts. **EFL.5.3.p.19**. Begin to distinguish facts from opinions in news reports, opinion columns, and reviews, using signal language and hedging markers as guides.	**EFL.5.2.a.7.** Engage with global issues — climate change, gender equality, migration, digital rights — through English with a commitment to informed, respectful, and constructive participation. **EFL.5.3.a.8**. Demonstrate interest in reading a variety of English-language texts — literary, journalistic, scientific, multimodal — beyond those assigned in class.

PROGRAMA PILOTO

EFL.5.2.d.15. Modal verbs and their functions: *can/could* (ability, polite request, permission), *will/would* (future, polite request, deduction), *shall* (offer, suggestion), *should/ought to* (advice, expectation), *may/might* (possibility), *must/mustn't* (obligation, prohibition), *have (got) to* (external obligation), *need/needn't* (necessity, lack of necessity), and *used to + infinitive* (past habits). **EFL.5.4.d.16.** Passive voice: present simple passive and past simple passive for informational and scientific register; modal passive (*should be done, must be checked*); and the causative *have/get + object + past participle* for services and life situations. **EFL.5.4.d.17.** Conditional sentences: Type 0 for scientific and universal truths; Type 1 (*If + present simple + will*) for real future possibilities; Type 2 (*If + past simple + would*) for hypothetical or counterfactual situations, including *"If I were you"*. **EFL.5.3.d.30.** Global issues: climate change and environmental responsibility, gender equality and non-discrimination, migration and belonging, digital rights and algorithmic bias, and youth civic engagement. **EFL.5.3.d.32.** Media literacy principles: purpose, audience, bias, framing, and source credibility applied to journalistic articles, social media posts, advertising, and AI-generated content; the distinction between information, opinion, and misinformation **EFL.5.3.d.33**. Responsible and ethical use of AI and digital tools for language learning: citing AI assistance, comparing AI output with reliable human sources, avoiding plagiarism, and recognizing when AI-generated content may exclude or misrepresent local communities.	**EFL.5.4.p.31.** Cite at least one source in written **EFL.5.3.p.20**. Evaluate the basic credibility of a written or digital source using criteria of authorship, date, institutional affiliation, and stated purpose. **EFL.5.4.p.24.** Write opinion columns with a clear thesis statement, two to three supporting reasons with examples, acknowledgment of a counterargument, and a conclusion that restates the thesis in new words. work using simple, consistent attribution formats (*e.g., According to ...*, *Source: ...*, *[Author, Year]*) and explain why the source is reliable. **EFL.5.4.p.36.** Summarize the main ideas of an English-language text in Spanish (or vice versa) for a specific non-English-speaking audience, preserving the key information without adding opinion. **EFL.5.4.p.38.** Gloss key terms — technical, cultural, or discipline-specific words — in English or Spanish so that a reader unfamiliar with the field can follow the text. **EFL.5.4.p.48**. Use AI tools ethically as a language-learning aid: acknowledge AI assistance in schoolwork, compare AI-generated responses with reliable sources, and avoid submitting AI-generated text as one's own. **EFL.5.3.p.49.** Evaluate the basic credibility of online sources using criteria of authorship, date, institutional affiliation, purpose, and evidence quality before using them in written or oral work.	**EFL.5.3.a.9**. Show persistence in navigating unfamiliar texts by using context clues, inference, and available resources rather than immediately seeking a translation.

PROGRAMA PILOTO

Methodological guidlines

The development of this competency is guided through Project-Based Learning (PBL), where students critically read English-language texts about the ethical use of artificial intelligence and transform their analysis into a practical document for their school community. Through critical media literacy and Socratic seminar, students examine the position, purpose, evidence, and recommendations presented in each text, recognizing that every source reflects a particular perspective and context. Collaborative work is organized through rotating roles that allow students to identify claims, analyze evidence, recognize language resources that express stance, and construct reasoned responses considering both benefits and risks of AI use. The process encourages students to evaluate information, justify their opinions, and develop responsible guidelines for the use of digital tools in educational and community contexts.

Interdisciplinary connections

The cluster connects English with Philosophy by exploring the ethical questions behind artificial intelligence, including ideas about human thinking, the role of users, and the perspectives presented in AI-related texts. It connects with Social Studies by examining the political and economic dimensions of AI, such as data, infrastructure, resources, and their relationship with Ecuador and Latin America. It connects with Language and Literature through the analysis of English-language genres related to AI ethics, such as frameworks, policies, opinion articles, and open letters, comparing their rhetorical features with regional texts. It connects with Mathematics by interpreting concepts related to probability, proportions, and data. It connects with Natural Sciences by analyzing the environmental impact of computation, including energy, water, and electronic waste. It connects with Citizenship Education by reflecting on collective decision-making and responsible guidelines. It also connects with Arts through questions of authorship and creativity in generated images and music, and with Physical Education and Health by considering the relationship between technology use, screen time, attention, sleep, and well-being.

PROGRAMA PILOTO

Specific Competency	Assessment indicators
CE.EFL.5.14. Reading English-language news reports carefully, focusing on emotional perspectives expressed through quoted voices, to recognize the human impact behind reported events. **CC, CSE, CCICC.**	**I.EFL.5.14**. Identify and describe the perspectives, feelings, and experiences of people quoted in a news report, using vocabulary for emotional and experiential states and citing specific textual evidence. **I.EFL.5.14.2**. Infer the emotional impact of a reported event on the people involved, distinguishing between what is explicitly stated and what is implied by word choice and context. **I.EFL.5.14.** Sympathize with and express empathy toward people affected by events reported in the news, using appropriate language for expressing care and concern.

Knowledge		
Peclarative	**Procedural**	**Atitudinal**
EFL.5.1.d.7. Journalistic and literary genres: the chronicle (narrative-informational hybrid), the magazine article, the review (film, book, place, or event), the opinion column with a thesis structure, and the short literary excerpt — their purposes, audiences, organisational patterns, and typical language features. **EFL.5.1.d.10.** Reading strategies for extended texts: skimming for the gist, scanning for specific information, activating prior knowledge and making predictions, inferring meaning from context clues, identifying the main idea versus supporting details, and recognising the text type and the author's purpose. **EFL.5.1.d.11**. Distinguishing facts from opinions in journalistic and informational texts: signal language (*according to, it is reported that, in my view, I believe*), hedging (*might, may, could, seems to*), and evaluative language (*unfortunately, remarkably, clearly*).	**EFL.5.2.p.4.** Identify a speaker's attitude, opinion, and degree of certainty in interviews, debates, and discussions, using lexical and prosodic cues. **EFL.5.2.p.12.** Conduct and respond to interviews, asking follow-up questions, requesting clarification, reformulating answers, and using active listening strategies. **EFL.5.3.p.16.** Read journalistic chronicles, magazine articles, and online blogs, identifying the main idea, supporting details, and the author's purpose and stance.	**EFL.5.3.a.5.** Recognize and reject cultural stereotypes and unfair representations in texts and media, and name the harm they can cause to communities and individuals. **EFL.5.2.a.7.** Engage with global issues — climate change, gender equality, migration, digital rights — through English with a commitment to informed, respectful, and constructive participation.

PROGRAMA PILOTO

EFL.5.1.d.14. Verb tenses for narrating and reporting: present simple for habits, states, and timeless truths; present continuous for current actions and future arrangements; present perfect simple with *just*, *already*, *yet*, *ever*, *never*, *for*, *since*; past simple for completed events; past continuous for background actions; past perfect simple for events before a past reference point; future with *will*, *going to*, and *shall*; and *was/were going to* for unfulfilled intentions. **EFL.5.2.d.18.** Simple reported speech with *say*, *ask*, *tell*: statements with backshift; yes/no questions with *if/whether;* wh-questions; commands with the infinitive; and indirect questions with *know* and *wonder*. **EFL.5.3.d.19.** Connectors and discourse markers for written cohesion: contrast (*however*, *although*, *whereas*, *while*, *on the other hand*), cause (*because*, *since*, *as*, *due to*), result (*therefore*, *as a result*, *so*, *consequently*), addition (*in addition*, *furthermore*, *moreover*), exemplification (*for example*, *for instance*, *such as*), concession (*even though*, *despite*, *despite*), and condition (*if*, *unless*, *provided that*). **EFL.5.4.d.32.** Media literacy principles: purpose, audience, bias, framing, and source credibility applied to journalistic articles, social media posts, advertising, and AI-generated content; the distinction between information, opinion, and misinformation.	**EFL.5.3.p.17**. Infer the meanings of unknown words and implied meanings from context clues, textual organization, and prior knowledge. **EFL.5.3.p.19.** Begin to distinguish facts from opinions in news reports, opinion columns, and reviews, using signal language and hedging markers as guides.	**EFL.5.3.a.9.** Show persistence in navigating unfamiliar texts by using context clues, inference, and available resources rather than immediately seeking a translation. **EFL.5.1.a.11.** Demonstrate empathy toward peers and community members who use English differently, supporting rather than correcting in ways that discourage participation.

PROGRAMA PILOTO

Methodological guidlines

The development of this competency is guided through Project-Based Learning (PBL), where students critically read English-language news reports to recognize the voices, emotions, and perspectives of the people represented in reported events. The process is supported by narrative inquiry and affective close reading, allowing students to analyze how reports construct meaning through quoted voices, linguistic resources that express feelings, and the social and cultural contexts surrounding each event. Students work collaboratively through rotating roles that allow them to identify voices, interpret emotions, reconstruct contexts, and develop empathetic and analytical responses. As a final product, students create an annotated anthology in English that includes selected news reports, voice and emotion maps, contextual glossaries, and reflections that demonstrate their understanding of the human impact of public events from a respectful and critical perspective.

Interdisciplinary connections

The cluster connects English with Lengua y Literatura by analyzing the structure of news reports, including headlines, leads, quotations, narrative framing, and the relationship between language choices and the way human experiences are represented. It connects with Estudios Sociales by examining the social, cultural, and historical contexts behind reported events and understanding how communities experience displacement, recovery, conflict, and collective challenges. It connects with Educación para la Ciudadanía by reflecting on the ethical responsibility of representing people's voices accurately, respecting different experiences, and recognizing the importance of empathy when discussing public events. It connects with Educación Cultural y Artística by exploring how stories, memories, and community experiences are communicated through different forms of expression and representation. It also connects with Tecnologías de la Información y la Comunicación by promoting critical reading of digital news sources, recognizing how information is framed, and considering how different media formats influence the way audiences understand human experiences.

PROGRAMA PILOTO

Specific Competency	Assessment indicators
CE.EFL.5.15. Reading short stories by adolescents from different parts of the world interculturally, to identify themes, voices, narrative techniques, and contexts, and to recognize adolescence as a diverse and plural experience. **CC, CCICC, CSE.**	**I.EFL.5.15.1**. Identify and compare themes, narrative voices, settings, and key events in two short stories by adolescent writers from different countries, explaining what is similar and different in their portrayal of adolescence. **I.EFL.5.15.2.** Infer the social and cultural context of a story from details of setting, language, and character experience, explaining how this context shapes the events and their meaning. **I.EFL.5.15.3.** Express and justify a personal response to a story, connecting at least one theme or experience from the text to a question, concern, or experience relevant to one's own life.

Knowledge		
Declarative	**Procedural**	**Atitudinal**
EFL.5.1.d.7. Journalistic and literary genres: the chronicle (narrative-informational hybrid), the magazine article, the review (film, book, place, or event), the opinion column with a thesis structure, and the short literary excerpt — their purposes, audiences, organisational patterns, and typical language features. **EFL.5.1.d.10.** Reading strategies for extended texts: skimming for the gist, scanning for specific information, activating prior knowledge and making predictions, inferring meaning from context clues, identifying the main idea versus supporting details, and recognising the text type and the author's purpose.	**EFL.5.2.p.6.** Describe experiences, memories, dreams, and future ambitions using a range of tenses, discourse markers, and evaluative vocabulary. **EFL.5.2.p.21**. Synthesize information across two short texts on the same topic, identifying shared ideas, differences in framing, and points of complementarity. **EFL.5.2.p.22.** Read short literary excerpts — stories, autobiographical fragments, song lyrics — and identify themes, narrative voice, setting, and the ways the author creates meaning. **EFL.5.4.p.25.**Write autobiographical narratives and biographical texts using first- or third-person narration, past tense, chronological organization, and evaluative reflection on events.	**EFL.5.1.a.4.** Show curiosity and openness toward the cultural practices, values, and perspectives of English-using communities. EFL.5.a.5. Recognize and reject cultural stereotypes and unfair representations in texts and media, and name the harm they can cause to communities and individuals. **EFL.5.2.a.6**. Value linguistic and cultural diversity as a resource for collective understanding, and recognize plurilingualism as a continuous learning process rather than a destination. **EFL.5.3.a.8**. Demonstrate interest in reading a variety of English-language texts — literary, journalistic, scientific, multimodal — beyond those assigned in class.

PROGRAMA PILOTO

EFL.5.1.d.14.Verb tenses for narrating and reporting: present simple for habits, states, and timeless truths; present continuous for current actions and future arrangements; present perfect simple with *just, already, yet, ever, never, for, since*; past simple for completed events; past continuous for background actions; past perfect simple for events before a past reference point; future with *will*, *going to*, and *shall*; and *was/were going to* for unfulfilled intentions. **EFL.5.2.d.20.** Comparatives and superlatives (regular and irregular) with degree modifiers: *much/far/a lot + comparative*, *not as ... as*, *not ... enough to*, *too ... to*; intensifiers (*very, quite, rather, extremely, fairly*); and compound adjectives. **EFL.5.1.d.22.** Verb complementation patterns: infinitive with and without *to* after verbs and adjectives; gerund after verbs and prepositions; gerund as subject or object; phrasal verbs and verbs with prepositions; and verb + object + infinitive patterns (*give/take/send + direct/indirect object*). **EFL.5.1.d.23**. Vocabulary: Clothes, Daily life, Education, Entertainment and media, Environment, Food and drink, Free time, Health medicine and exercise, Hobbies and leisure, House and home, Language, People, Personal feelings experiences and opinions, Personal identification, Places and buildings, Relations with other people, Services, Shopping, Social interaction, Sport, The natural world, Transport, Travel and holidays, Weather — with particular attention to collocations, dependent prepositions, and register variation within each field. **EFL.5.3.d.28.** Cultural diversity of English-using communities: language and cultural practices in the Philippines, Kenya, Tanzania, Aotearoa/New Zealand, Vietnam, India, Jamaica, Singapore, and Ireland — their histories with English, distinct voices, and contributions to global culture and knowledge.	**EFL.5.4.p.26**. Produce reviews of films, books, places, or events using the description-opinion-recommendation structure, evaluative vocabulary, and explicit criteria. **EFL.5.4.p.40.** Mediate cultural concepts — practices, values, or references specific to one culture — across two cultural contexts, explaining their meaning and significance to an audience unfamiliar with them. **EFL.5.4.p.43.** Re4cord and recycle new vocabulary systematically using vocabulary notebooks, flashcard systems, and spaced repetition, organizing entries by topic, collocations, and example sentences	**EFL.5.3.a.10**. Value the act of reading as a way to encounter different lives, perspectives, and questions, and recognize literature as both a mirror and a window for understanding one's own experience and that of others. **EFL.5.3.a.22.** Show appreciation for the aesthetic and expressive possibilities of English — its rhythms, images, tones, and registers — as encountered in literature, music, film, and everyday language. **EFL.5.4.a.23**. Value creative transformation of texts — remixes, alternative endings, changes of voice — as a legitimate and meaningful form of authorship that connects reading and writing.

PROGRAMA PILOTO

Methodological guidlines

The cluster adopts Project-Based Learning (PBL) because students collaboratively produce a comparative reader in English that introduces and interprets short stories written by adolescent authors from diverse English-speaking communities. Literary circles organize the learning process, allowing learners to rotate analytical roles focused on theme, narrative voice, literary techniques, and cultural context, while intercultural dialogue ensures that each story is first understood on its own terms before being compared with others. Students engage in repeated close readings using structured thinking routines that guide observation, questioning, visualization, interpretation, and reflection. Throughout the project, they write introductions, compare perspectives, discuss literary choices, and present their work during a public reading event. Assessment combines teacher observation, self-assessment, peer feedback, reflective journals, and the quality of the comparative reader, valuing literary interpretation, intercultural understanding, and meaningful communication in English.

Interdisciplinary connections

English connects with Language and Literature through the analysis of short stories as literary texts and the comparison of English- and Spanish-language traditions. It connects with Social Studies and History by exploring the social, cultural, and historical contexts represented in the stories. It connects with Arts Education and Music by examining literary expression alongside visual, musical, and oral traditions. It also connects with Philosophy, Citizenship Education, and Gender Studies by reflecting on identity, intercultural understanding, inclusive representation, and gender roles from the perspective of each story.

PROGRAMA PILOTO

Specific Competency	Assessment indicators
CE.EFL.5.16. Engaging creatively with literature by transforming short stories into alternative versions, including rewritings, new endings, and shifts in narrative perspective, with peer review. **CC, CECA, CSE.**	**I.EFL.5.16.1.** Produce a short literary remix of a read story — an alternative ending, a change of narrative voice, or a transfer of context — that preserves the original's themes while demonstrating creative transformation. **I.EFL.5.16.2.** Describe and justify the creative choices made in the literary remix, explaining how they relate to and depart from the source text. **I.EFL.5.16.3**. Revise a literary remix using peer feedback focused on narrative coherence, language range, and creative originality, producing an improved final version.

Knowledge		
Declarative	**Procedural**	**Atitudinal**
EFL.5.4.d.17. Conditional sentences: Type 0 for scientific and universal truths; Type 1 (*If + present simple + will*) for real future possibilities; Type 2 (*If + past simple + would*) for hypothetical or counterfactual situations, including *"If I were you"*. **EFL.5.4.d.22.** Verb complementation patterns: infinitive with and without *to* after verbs and adjectives; gerund after verbs and prepositions; gerund as subject or object; phrasal verbs and verbs with prepositions; and verb + object + infinitive patterns (*give/take/send + direct/indirect object*). **EFL.5.4.d.35.** Contrastive linguistics of English: typological differences (word order, articles, null subject, periphrastic verbs), false friends, calques, syntactic transfer errors, and how awareness of these supports accuracy.	**EFL.5.3.p.22.** Read short literary excerpts — stories, autobiographical fragments, song lyrics — and identify themes, narrative voice, setting, and the ways the author creates meaning. **EFL.5.4.p.26.** Produce reviews of films, books, places, or events using the description-opinion-recommendation structure, evaluative vocabulary, and explicit criteria. **EFL.5.4.p.32**. Revise one's own and peers' drafts using a rubric that covers content, organization, language range, accuracy, and audience awareness, and provide constructive written feedback. **EFL.5.4.p.33**. Rewrite the draft to improve cohesion and grammatical accuracy, making targeted corrections to verb tenses, connectors, article use, and vocabulary range.	**EFL.5.3.a.10.** Value the act of reading as a way to encounter different lives, perspectives, and questions, and recognize literature as both a mirror and a window for understanding one's own experience and that of others. **EFL.5.4.a.13.** Engage cooperatively in collaborative writing, editing, and revision processes, treating peers' texts with respect and offering feedback that is specific, constructive, and kind. **EFL.5.2.a.14.** Recognize the importance of second chances and repair in collaborative learning: willingness to revisit, revise, and rebuild understanding after miscommunication or disagreement. **EFL.5.4.a.16.** Show commitment to accuracy and improvement in language production, using feedback from rubrics, peers, and teachers as a resource for growth rather than a judgment.

PROGRAMA PILOTO

EFL.5.4.d.37. Self-assessment and peer assessment in language learning: rubric criteria for spoken and written production at B1; consolidated error analysis; constructive feedback language; and the distinction between accuracy, fluency, and range. **EFL.5.4.d.38.** Language-learning strategies: planning and goal-setting for a learning task; monitoring comprehension and production using checklists; self-correcting with grammar and vocabulary references; recording and recycling vocabulary through notebooks, flashcards, and spaced repetition; and reflecting on error patterns to set improvement goals.	**EFL.5.p.42.** Monitor comprehension and production during a task using checklists, self-assessment rubrics, and peer feedback, and adjust strategies as needed. **EFL.5.4.p.44.** Reflect on language errors, identify patterns (e.g., consistent tense confusion, missing articles, calques from Spanish), and set specific improvement goals for the next task. **EFL.5.4.p.50.** Respect intellectual property in school products: credit images, texts, sounds, and ideas borrowed from others using simple attribution formats and basic license information. **EFL.5.2.p.51**. Cooperate respectfully in pairs and groups: take turns, listen actively, give and receive constructive feedback, and help peers express their ideas.	**EFL.5.4.a.17.** Value self-assessment and peer assessment as fair and useful tools for learning, engaging with them honestly and constructively. **EFL.5.4.a.18.** Recognize that language errors are a natural and necessary part of learning, and develop resilience and a growth mindset in response to difficulty or correction. **EFL.5.4.a.23.** Value creative transformation of texts — remixes, alternative endings, changes of voice — as a legitimate and meaningful form of authorship that connects reading and writing.

Methodological guidlines

The learning sequence develops through four flexible stages. First, students explore a portfolio of short stories in English from diverse cultural and linguistic backgrounds, focusing on enjoyment, curiosity, and personal responses. Second, teams conduct close readings through structured routines that examine themes, narrative voice, literary techniques, humor, and cultural contexts, using collaborative reflection tools. Third, students create literary remixes and author's notes through a writers' workshop process based on respectful feedback, revision, and creative decision-making. Finally, the cohort presents the remixes in a public reading event and compiles a collaborative anthology for the school community. Formative assessment includes observation, self-assessment, peer feedback, and reflective journals. Summative assessment considers close-reading records, the quality of the remix and author's note, and participation in the final literary presentation.

Interdisciplinary connections

The teacher provides differentiated pathways that adjust the reading process and creative expression according to students' needs, interests, and linguistic backgrounds. Students may access stories through adapted formats, audio support, flexible participation, bilingual resources, or alternative ways to present their literary remixes. Advanced learners explore deeper literary analysis through comparative studies, humor analysis, or multiple forms of transformation. Interdisciplinary connections strengthen the learning experience: Lengua y Literatura explores the short story as a global literary form and its relationship with local narratives; Art Education examines remix as a creative practice across artistic disciplines; Philosophy reflects on humor, meaning, and ethical expression; Music; Social Studies and History analyze literature as a carrier of cultural memory; and Citizenship Education develops respectful dialogue and constructive peer feedback.

PROGRAMA PILOTO

Specific Competency	Assessment indicators
CE.EFL.5.17. Developing intercultural awareness through guided research into school life in different countries, using English-language sources, to recognize diversity in educational systems and experiences. **CC, CCICC, CMCT, CD.**	**I.EFL.5.17.1.** Identify and compare key information about school life in at least two different countries from guided English-language sources, synthetizing findings in a short written or oral summary. **I.EFL.5.17.2**. Evaluate the reliability of at least two English-language sources consulted in the research, applying criteria of authorship, date, institutional affiliation, and purpose. **I.EFL.5.17.3**. Express and justify an opinion on an aspect of school life in another context, comparing it respectfully with one's own experience and recognizing both similarities and differences.

Knowledge		
Declarative	**Procedural**	**Atitudinal**
EFL.5.3.d.12. Basic source evaluation criteria: authorship, institutional affiliation, date of publication, stated purpose, evidence quality, and potential bias — applicable to print and digital texts, including AI-generated content. **EFL.5.4.d.13.** Referencing and attribution conventions: in-text citation using simple formats (*Author, Year*), signal phrases for reported information, and the distinction between summary, paraphrase, and quotation. **EFL.5.2.d.18.** Simple reported speech with *say, ask, tell*: statements with backshift; yes/no questions with *if/whether;* wh-questions; commands with the infinitive; and indirect questions with *know* and *wonder*. **EFL.5.2.d.20**. Comparatives and superlatives (regular and irregular) with degree modifiers: *much/far/a lot + comparative*, *not as … as*, *not … enough to*, *too … to*; intensifiers (*very, quite, rather, extremely, fairly*); and compound adjectives.	**EFL.5.1.p.1.** Identify the main idea and specific information in extended monologues, lectures, and talks on academic, cultural, and community topics, taking notes using keywords and phrases. **EFL.5.1.p.14.** Clarify and reformulate one's own statements and paraphrase what others have said to confirm understanding. **EFL.5.3.p.20**. Evaluate the basic credibility of a written or digital source using criteria of authorship, date, institutional affiliation, and stated purpose. **EFL.5.3.p.21**. Synthesize information across two short texts on the same topic, identifying shared ideas, differences in framing, and points of complementarity. **EFL.5.4.p.31.** Cite at least one source in written work using simple, consistent attribution formats (*e.g., According to …*, *Source: …*, *[Author, Year]*) and explain why the source is reliable.	**EFL.5.3.a.12.** Value mediation — summarizing, paraphrasing, glossing, explaining — is a meaningful communicative act that bridges languages, cultures, and knowledge systems.

PROGRAMA PILOTO

EFL.5.2.d.23. Vocabulary: Clothes, Daily life, Education, Entertainment and media, Environment, Food and drink, Free time, Health medicine and exercise, Hobbies and leisure, House and home, Language, People, Personal feelings experiences and opinions, Personal identification, Places and buildings, Relations with other people, Services, Shopping, Social interaction, Sport, The natural world, Transport, Travel and holidays, Weather — with particular attention to collocations, dependent prepositions, and register variation within each field. **EFL.5.2.d.29.** Intercultural awareness in communication: politeness norms, register expectations, taboo or sensitive topics, and the cultural specificity of humour, indirectness, and non-verbal behaviour. **EFL.5.3.d.36.** Strategies for mediating texts and meaning: summarizing the main points of an English text for a non-English-speaking audience; paraphrasing to simplify or clarify; glossing key terms; and explaining culturally specific concepts.	**EFL.5.3.p.36.** Summarize the main ideas of an English-language text in Spanish (or vice versa) for a specific non-English-speaking audience, preserving the key information without adding opinion. **EFL.5.3.p.37**. Paraphrase a complex English statement or passage into simpler English or Spanish to clarify its meaning for a peer or community member. **EFL.5.3.p.38.** Gloss key terms — technical, cultural, or discipline-specific words — in English or Spanish so that a reader unfamiliar with the field can follow the text. **EFL.5.3.p.40**. Mediate cultural concepts — practices, values, or references specific to one culture — across two cultural contexts, explaining their meaning and significance to an audience unfamiliar with them. **EFL.5.4.p.41**. Plan a language-learning task by setting a specific goal, selecting appropriate resources, and establishing steps and a time frame. **EFL.5.4.p.43.** Record and recycle new vocabulary systematically using vocabulary notebooks, flashcard systems, and spaced repetition, organizing entries by topic, collocations, and example sentences. **EFL.5.4.p.48.** Use AI tools ethically as a language-learning aid: acknowledge AI assistance in schoolwork, compare AI-generated responses with reliable sources, and avoid submitting AI-generated text as one's own.	**EFL.5.4.a.15.** Demonstrate responsibility for one's own learning by completing tasks, meeting agreed-upon timelines, reflecting honestly on progress, and proactively seeking help when needed.

PROGRAMA PILOTO

Methodological guidlines

The learning sequence is organized through Project-Based Learning (PBL), where students create a comparative report in English about school experiences in different contexts. Through process writing, learners move through planning, drafting, peer feedback, revision, and editing, understanding writing as a continuous process of meaning construction. Students engage with English-language sources using a language-detective approach to analyze tense, modality, cohesion, and register, recognizing how linguistic choices shape meaning and perspective. Collaborative teams assume rotating roles such as source curator, language detective, comparative drafter, and editor-reader, promoting research, critical reading, and responsible communication. Formative assessment accompanies each stage through observation, self-assessment, peer feedback, and writing journals. The final product is a revised comparative report that values educational diversity and supports intercultural understanding.

Interdisciplinary connections

Through Social Studies and History, students analyze how economic conditions, geography, and historical processes shape educational systems. Mathematics supports the interpretation of educational data, promoting careful comparison of indicators. Philosophy encourages reflection on the purpose of schooling, while Citizenship Education explores participation and student voice. Arts Education highlights the role of creativity in different school contexts. Language and Literature strengthens comparative writing and academic communication in English and Spanish. Physical Education and Health connects school organization with students' wellbeing, considering aspects such as sleep, movement, and balanced routines. These connections promote critical thinking and intercultural understanding.

PROGRAMA PILOTO

Specific Competency	Assessment indicators
CE.EFL.5.18. Collective creation of anti-discrimination campaigns through posters, digital publications, and awareness messages to promote non-discrimination within school and community contexts. CC, CCICC, CD, CIT.	I.EFL.5.18.1. Produce a written anti-discrimination campaign text (poster, digital publication, or awareness message) with a clear message, supporting reasons, a call to action, and appropriate visual integration. I.EFL.5.18.2. Explain and justify the campaign's message and design choices to a peer or community audience, using persuasive language and responding to questions. I.EFL.5.18.3. Evaluate the clarity, inclusiveness, and potential reach of a campaign text using feedback from peers and a simple rubric, then revise accordingly.

Knowledge		
Declarative	**Procedural**	**Atitudinal**
EFL.5.2.d.15. Modal verbs and their functions: can/ could (ability, polite request, permission), will/ would (future, polite request, deduction), shall (offer, suggestion), should/ought to (advice, expectation), may/might (possibility), must/mustn't (obligation, prohibition), have (got) to (external obligation), need/ needn't (necessity, lack of necessity), and used to + infinitive (past habits). EFL.5.3.d.30. Global issues: climate change and environmental responsibility, gender equality and non-discrimination, migration and belonging, digital rights and algorithmic bias, and youth civic engagement.	EFL.5.2.p.8. Explain causes and consequences of social, environmental, or technological issues using Type 1 and Type 2 conditionals, modals, and cause-result connectors. EFL.5.2.p.13. Negotiate plans and services, expressing preferences, suggesting alternatives, and reaching agreements using modal verbs and conditional structures. EFL.5.4.p.27. Draft formal and informal emails and messages adapted to purpose, audience, and register — openings, main content, requests or calls to action, and appropriate closings. EFL.5.4.p.32. Revise one's own and peers' drafts using a rubric that covers content, organization, language range, accuracy, and audience awareness, and provide constructive written feedback. EFL.5.4.p.34. Integrate visuals and text in multimodal products (posters, digital publications, photo-essays, illustrated anthologies) so that each mode contributes meaningfully to the overall message.	EFL.5.2.a.3. Value the contributions of all group members regardless of English proficiency level, encouraging quieter voices and creating space for everyone to participate. EFL.5.2.a.7. Engage with global issues — climate change, gender equality, migration, digital rights — through English with a commitment to informed, respectful, and constructive participation. EFL.5.a.4.13. Engage cooperatively in collaborative writing, editing, and revision processes, treating peers' texts with respect and offering feedback that is specific, constructive, and kind EFL.5.2.a.14. Recognize the importance of second chances and repair in collaborative learning: willingness to revisit, revise, and rebuild understanding after miscommunication or disagreement.

PROGRAMA PILOTO

EFL.5.4.d.34. Environmental and community responsibility expressed in English: vocabulary for describing environmental actions; concepts of the rights of nature and Sumak Kawsay; and participation in cause-driven school and community projects. EFL.5.3.d.37. Self-assessment and peer assessment in language learning: rubric criteria for spoken and written production at B1; consolidated error analysis; constructive feedback language; and the distinction between accuracy, fluency, and range.	EFL.5.4.p.35. Write short public service announcements and awareness messages using clear structure (hook, information, call to action), direct address, and imperative or modal constructions. EFL.5.3.p.42. Monitor comprehension and production during a task using checklists, self-assessment rubrics, and peer feedback, and adjust strategies as needed. EFL.5.4.p.44. Reflect on language errors, identify patterns (e.g., consistent tense confusion, missing articles, calques from Spanish), and set specific improvement goals for the next task. EFL.5.2.p.46. Communicate ideas about environmental responsibility, sustainable practices, and community actions in English, using vocabulary for environmental topics and the rights of nature. EFL.5.2.p.47. Use English to participate in local and global cause-driven projects — anti-discrimination campaigns, environmental initiatives, heritage documentation — contributing written and spoken texts to shared community purposes. EFL.5.2.p.51. Cooperate respectfully in pairs and groups: take turns, listen actively, give and receive constructive feedback, and help peers express their ideas. EFL.5.4.p.52. Write, record, or publish school products responsibly, asking for permission before including another person's image, voice, or work and recognizing the importance of ethical representation	EFL.5.2.a.17. Value self-assessment and peer assessment as fair and useful tools for learning, engaging with them honestly and constructively. EFL.5.2.a.18. Recognize that language errors are a natural and necessary part of learning, and develop EFL.5.2.a.19. Show commitment to environmental responsibility by using English to communicate about sustainability, the rights of nature, and community-based environmental actions. EFL.5.2.a.21. Demonstrate a sense of responsibility toward the school community by using English skills in service of collective well-being — through campaigns, awareness messages, and shared documentation.

PROGRAMA PILOTO

Methodological guidelines

The learning process is developed through Project-Based Learning (PBL), where students create a real English-language campaign on non-discrimination for the school and community. Learners begin by analyzing diverse English texts about discrimination, identifying forms, perspectives, and language choices. Through collaborative teams, they transform ideas into posters, digital publications, and awareness messages, selecting the format that best communicates each purpose. The process includes community-based writing, peer feedback, prototyping, and user testing to revise messages according to audience responses. Students practice positive and inclusive language, using English to promote respect, equity, and recognition of diversity. Formative assessment accompanies each stage through observation, self-assessment, peer feedback, and revision logs, while the final campaign products demonstrate communicative competence and social responsibility.

Interdisciplinary connections

The project establishes interdisciplinary connections by understanding non-discrimination as a social, ethical, and communicative practice. Educación Ciudadana contributes by exploring campaigns as civic communication tools that promote participation, responsibility, and collective action. Lengua y Literatura supports the analysis of persuasive language, rhetorical choices, and the construction of inclusive messages in English and Spanish contexts. Estudios Sociales allows students to examine the social structures and cultural practices that influence discrimination and inclusion. Filosofía encourages reflection on recognition, respect, tolerance, and belonging. Estudios Artísticos contributes through the design and interpretation of visual messages and public campaigns. Estudios de Género examines stereotypes and inequalities, while Educación para la Salud connects recognition, empathy, and respectful relationships with collective well-being.

PROGRAMA PILOTO

Specific Competency	Assessment indicators
CE.EFL.5.19. Developing collaborative documentation skills by taking meeting notes and recording participants, topics, agreements, and pending tasks to support accountability in collective decision-making. CC, CIT, CD, CSE, CCICC.	**I.EFL.5.19.1.** Take accurate and organized notes during a student meeting in English, recording participants, topics discussed, agreements reached, and pending matters in a clear and usable format. **I.EFL.5.19.2.** Summarize meeting notes in a short, written report, organizing information under appropriate headings and distinguishing between what was agreed and what remains to be decided. I.EFL.5.19.3. Present meeting outcomes to absent peers, using appropriate reporting language (it was agreed that ..., participants decided to ..., the next steps are ...).

Knowledge		
Declarative	**Procedural**	**Atitudinal**
EFL.5.2.d.1. Registers in spoken English — formal, semi-formal, and informal — and the vocabulary, intonation, and formulas that distinguish them across face-to-face, phone, and digital interactions. **EFL.5.2.d.2.** Turn-taking strategies in debates and group discussions: yielding, holding, and claiming the floor; backchanneling; managing interruptions politely; and signalling that one has finished speaking. **EFL.5.4.d.8.** Academic and functional written genres: the report with sections (objective, procedure, results, conclusion), the formal and informal email, the biographical and autobiographical text, the photo-essay, the public service announcement, and meeting notes — structure and register conventions for each.	**EFL.5.1.p.1.** Identify the main idea and specific information in extended monologues, lectures, and talks on academic, cultural, and community topics, taking notes using keywords and phrases. **EFL.5.1.p.4.** Identify a speaker's attitude, opinion, and degree of certainty in interviews, debates, and discussions, using lexical and prosodic cues. **EFL.5.2.p.10.** Open, maintain, and close conversations in semi-formal contexts — introductions, service encounters, school or community meetings — using appropriate formulas and register. **EFL.5.3.p.36.** Summarize the main ideas of an English-language text in Spanish (or vice versa) for a specific non-English-speaking audience, preserving the key information without adding opinion. **EFL.5.1.p.51.** Cooperate respectfully in pairs and groups: take turns, listen actively, give and receive constructive feedback, and help peers express their ideas.	**EFL.5.2.a.3.** Value the contributions of all group members regardless of English proficiency level, encouraging quieter voices and creating space for everyone to participate. **EFL.5.2.a.11.** Demonstrate empathy toward peers and community members who use English differently, supporting rather than correcting in ways that discourage participation.

PROGRAMA PILOTO

EFL.5.4.d.18. Simple reported speech with say, ask, tell: statements with backshift; yes/no questions with if/whether; wh-questions; commands with the infinitive; and indirect questions with know and wonder. **EFL.5.2.a.1.** Show genuine attention and respect when others are speaking in English by maintaining eye contact, using appropriate backchanneling, and waiting for natural pauses before responding.	**EFL.5.2.p.13.** Negotiate plans and services, expressing preferences, suggesting alternatives, and reaching agreements using modal verbs and conditional structures. **EFL.5.2.p.14.** Clarify and reformulate one's own statements and paraphrase what others have said to confirm understanding. **EFL.5.2.p.15.** Use turn-taking signals effectively: backchanneling, holding the floor, yielding, politely interrupting, and managing overlapping speech in group discussions. **EFL.5.4.p.27**. Draft formal and informal emails and messages adapted to purpose, audience, and register — openings, main content, requests or calls to action, and appropriate closings.	**EFL.5.4a.15.** Demonstrate responsibility for one's own learning by completing tasks, meeting agreed-upon timelines, reflecting honestly on progress, and proactively seeking help when needed. **EFL.5.2.a.21.** Demonstrate a sense of responsibility toward the school community by using English skills in service of collective well-being — through campaigns, awareness messages, and shared documentation.

Methodological guidlines

The learning process is developed through Project-Based Learning (PBL) supported by a note-taking apprenticeship, mentor-text scaffolding, and authentic minute-keeping experiences with real student bodies. Students analyze English-language meeting minutes to identify their textual structure, register, reported speech, attribution practices, and organization of decisions and pending tasks. Through collaborative teams with rotating roles, learners practice selective listening, clarification strategies, attendance recording, and the transformation of oral information into formal written documents. The process includes simulated meetings, participation in real school assemblies, peer feedback, revision, and oral reporting. Students understand minute writing as a civic practice that preserves collective decisions and accountability. Assessment accompanies each stage through notebooks, drafts, feedback from participants, and final portfolios containing authentic minutes and oral summaries

Interdisciplinary connections

The project establishes interdisciplinary connections by understanding minute writing as a civic, linguistic, and organizational practice. Lengua y Literatura contributes through the analysis of reported speech, documentary genres, and the comparison of administrative texts in English and Spanish. Social Studies explores the historical role of meeting records in collective decision-making and democratic accountability. Citizenship Education connects documentation with transparency, participation, and the right to access community decisions. Philosophy examines the ethics of testimony, representation, and the responsibility of recording others' voices accurately. Cultural and Artistic Education addresses the visual organization of documents and how design influences trust. Mathematics contributes through vote calculations, attendance percentages, and quorum analysis in authentic meeting contexts.

PROGRAMA PILOTO

Specific Competency	Assessment indicators
CE.EFL.5.20. Producing informative articles on community projects, structured into introduction, development, participant voices, and conclusion, to share local initiatives with wider audiences and value community knowledge. **CC, CMCT, CIT, CCICC**.	.EFL.5.20.1: Compose a short informative article on a community project with an introduction, developed body paragraphs with at least two participant voices, and a conclusion that connects the project to a broader issue. I.EFL.5.20.2: Describe and explain the significance and impact of a community project in English, using factual language, vocabulary for community action, and at least one cited or paraphrased voice. I.EFL.5.20.3: Revise an informative article using a peer-review rubric focused on content accuracy, paragraph organization, voice representation, and language appropriateness.

Knowledge		
Declarative	**Procedural**	**Atitudinal**
EFL.5.1.d.8. Academic and functional written genres: the report with sections (objective, procedure, results, conclusion), the formal and informal email, the biographical and autobiographical text, the photo-essay, the public service announcement, and meeting notes — structure and register conventions for each. **EFL.5.2.d.9.** Text organisation principles: introduction-body-conclusion structure, paragraph unity and development, cohesive devices (reference, substitution, conjunction, lexical chains), and the role of topic sentences and supporting details. **EFL.5.2.d.12.** Basic source evaluation criteria: authorship, institutional affiliation, date of publication, stated purpose, evidence quality, and potential bias — applicable to print and digital texts, including AI-generated content.	**EFL.5.2.p.5**. Give a structured oral presentation on an academic or community topic, using visual aids and clearly organising information into an introduction, main points, and a conclusion. **EFL.5.1.p.12.** Conduct and respond to interviews, asking follow-up questions, requesting clarification, reformulating answers, and using active listening strategies. **EFL.5.3.p.20**. Evaluate the basic credibility of a written or digital source using criteria of authorship, date, institutional affiliation, and stated purpose. **EFL.5.4..p.23.** Compose journalistic chronicles that integrate narrative and informational elements, include scene-setting, a narrative voice, sources, and a conclusion that connects the event to a broader issue.	**EFL.5.2.a.12.** Value mediation — summarizing, paraphrasing, glossing, explaining — is a meaningful communicative act that bridges languages, cultures, and knowledge systems. **EFL.5.4.a.13.** Engage cooperatively in collaborative writing, editing, and revision processes, treating peers' texts with respect and offering feedback that is specific, constructive, and kind. **EFL.5.4.a.17.** Value self-assessment and peer assessment as fair and useful tools for learning, engaging with them honestly and constructively. **EFL.5.4.a.19.** Show commitment to environmental responsibility by using English to communicate about sustainability, the rights of nature, and community-based environmental actions.

PROGRAMA PILOTO

EFL.5.3.d.13. Referencing and attribution conventions: in-text citation using simple formats (*Author, Year*), signal phrases for reported information, and the distinction between summary, paraphrase, and quotation. **EFL.5.4.d.16.** Passive voice: present simple passive and past simple passive for informational and scientific register; modal passive (*should be done, must be checked*); and the causative *have/get + object + past participle* for services and life situations. **EFL.5.3.d.34.** Environmental and community responsibility expressed in English: vocabulary for describing environmental actions; concepts of the rights of nature and Sumak Kawsay; and participation in cause-driven school and community projects. **EFL.5.4.d.19**. Connectors and discourse markers for written cohesion: contrast (*however, although, whereas, while, on the other hand*), cause (*because, since, as, due to*), result (*therefore, as a result, so, consequently*), addition (*in addition, furthermore, moreover*), exemplification (*for example, for instance, such as*), concession (*even though, despite, despite*), and condition (*if, unless, provided that*). **EFL.5.3.d.31.** Local Ecuadorian culture, heritage, and identity expressed in English: natural landscapes, ancestral knowledge, community traditions, Afro-Ecuadorian and Indigenous voices, and the principle of Sumak Kawsay / Buen Vivir as a framework for sustainable living.	**EFL.5.3.p.31.** Cite at least one source in written work using simple, consistent attribution formats (e.g., According to ..., Source: ..., [Author, Year]) and explain why the source is reliable. **EFL.5.4.p.32**. Revise one's own and peers' drafts using a rubric that covers content, organization, language range, accuracy, and audience awareness, and provide constructive written feedback. **EFL.5.4.p.33.** Rewrite the draft to improve cohesion and grammatical accuracy, making targeted corrections to verb tenses, connectors, article use, and vocabulary range. EFL.5.3.p.37. Paraphrase a complex English statement or passage into simpler English or Spanish to clarify its meaning for a peer or community member. **EFL.5.2.p.39**. Act as an informal interpreter for short exchanges in school or community contexts, facilitating communication between English and Spanish speakers with accuracy and respect. **EFL.5.2.p.46.** Communicate ideas about environmental responsibility, sustainable practices, and community actions in English, using vocabulary for environmental topics and the rights of nature.	**EFL.5.4.a.20.** Value local knowledge, ancestral practices, and community voices as sources of insight and wisdom worth documenting and sharing in English.

PROGRAMA PILOTO

EFL.5.3.d.32. Media literacy principles: purpose, audience, bias, framing, and source credibility applied to journalistic articles, social media posts, advertising, and AI-generated content; the distinction between information, opinion, and misinformation. **EFL.5.3.d.36.** Strategies for mediating texts and meaning: summarizing the main points of an English text for a non-English-speaking audience; paraphrasing to simplify or clarify; glossing key terms; and explaining culturally specific concepts. **EFL.5.4.d.37.** Self-assessment and peer assessment in language learning: rubric criteria for spoken and written production at B1; consolidated error analysis; constructive feedback language; and the distinction between accuracy, fluency, and range.	**EFL.5.2.p.47**. Use English to participate in local and global cause-driven projects — anti-discrimination campaigns, environmental initiatives, heritage documentation — contributing written and spoken texts to shared community purposes. **EFL.5.3.p.49.** Evaluate the basic credibility of online sources using criteria of authorship, date, institutional affiliation, purpose, and evidence quality before using them in written or oral work. **EFL.5.3.p.50**. Respect intellectual property in school products: credit images, texts, sounds, and ideas borrowed from others using simple attribution formats and basic license information.	**EFL.5.4.a.21.** Demonstrate a sense of responsibility toward the school community by using English skills in service of collective well-being — through campaigns, awareness messages, and shared documentation.

Methodological guidlines

Learning is organized through Project-Based Learning (PBL), where students investigate a real community initiative and produce an informative article in English for an authentic audience. Learners analyze mentor texts to identify text structure, attribution, cohesion, and register before conducting community-based research through field visits, interviews, and English-language sources. Working collaboratively, they assume rotating roles such as researcher, interviewer, drafter, and source manager, ensuring ethical participation, accurate documentation, and proper citation. Teachers scaffold the process with explicit instruction on source evaluation, attribution, cohesion devices, and drafting strategies, while promoting reflection, revision, and verification of information. The project concludes with the publication and oral presentation of the article, returning the final product to the community to foster reciprocity, responsible communication, and meaningful engagement with local realities.

Interdisciplinary connections

Language and Literature strengthens informative writing through the use of attribution verbs, hedging language, and genre conventions. Social Studies helps students understand community projects as expressions of civic participation and their relationship with public initiatives. Citizenship Education fosters ethical engagement by emphasizing reciprocity, informed consent, accurate representation, and respect for community voices throughout the research process. Philosophy encourages epistemic responsibility by distinguishing evidence-based knowledge from personal opinion and highlighting the importance of trustworthy information. Arts Education contributes through documentary photography, visual storytelling, image authorization, and caption writing as complementary forms of communication. Mathematics supports the responsible interpretation and contextualization of numerical information, ensuring that quantitative evidence strengthens the credibility and accuracy of the informative article.

PROGRAMA PILOTO

Specific Competency	Assessment indicators
CE.EFL.5.23. Creation of public service announcements in English on community issues, using clear scripts, calls to action, and peer revision to share useful information and support community well-being. **CCICC, CC, CIT, CMCT.**	**I.EFL.5.23.1.** Write and deliver a short public service announcement (PSA) script with a hook, key information, a clear call to action, and appropriate length and tone for the target community audience. **I.EFL.5.23.2.** Persuade and advise an audience through a PSA, using imperative forms, modals of recommendation, and affective language that creates a connection without causing alarm. **I.EFL.5.23.3.** Revise a PSA script based on peer and teacher feedback, improving the clarity of the message, the strength of the call to action, and the accuracy of the language used.

Knowledge		
Declarative	**Procedural**	**Atitudinal**
EFL.5.2.d.3. Prosodic features used for emphasis and contrast: sentence stress on key information, contrastive stress, rising and falling intonation in statements and different question types, and intonation in tag questions and lists. **EFL.5.4.d.8.** Academic and functional written genres: the report with sections (objective, procedure, results, conclusion), the formal and informal email, the biographical and autobiographical text, the photo-essay, the public service announcement, and meeting notes — structure and register conventions for each. **EFL.5.2.d.15.** Modal verbs and their functions: *can/could* (ability, polite request, permission), *will/would* (future, polite request, deduction), *shall* (offer, suggestion), *should/ought to* (advice, expectation), *may/might* (possibility), *must/mustn't* (obligation, prohibition), *have (got) to* (external obligation), *need/needn't* (necessity, lack of necessity), and *used to + infinitive* (past habits).	**EFL.5.2.p.8.** Explain causes and consequences of social, environmental, or technological issues using Type 1 and Type 2 conditionals, modals, and cause-result connectors. **EFL.5.2.p.13**. Negotiate plans and services, expressing preferences, suggesting alternatives, and reaching agreements using modal verbs and conditional structures. **EFL.5.4.p.27.** Draft formal and informal emails and messages adapted to purpose, audience, and register — openings, main content, requests or calls to action, and appropriate closings. **EFL.5.4.p.30.** Write video scripts for short, informative or community-oriented pieces, including stage directions, voice-over text, transition notes, and a clear call to action.	**EFL.5.3.a.7.** Engage with global issues — climate change, gender equality, migration, digital rights — through English with a commitment to informed, respectful, and constructive participation. **EFL.5.4.a.13.** Engage cooperatively in collaborative writing, editing, and revision processes, treating peers' texts with respect and offering feedback that is specific, constructive, and kind. **EFL.5.2.a.14.** Recognize the importance of second chances and repair in collaborative learning: willingness to revisit, revise, and rebuild understanding after miscommunication or disagreement.

PROGRAMA PILOTO

EFL.5.4.d.17. Conditional sentences: Type 0 for scientific and universal truths; Type 1 (*If + present simple + will*) for real future possibilities; Type 2 (*If + past simple + would*) for hypothetical or counterfactual situations, including *"If I were you"*. **EFL.5.2.d.25.** Sentence stress, rhythm, and timing in English as a stress-timed language: nuclear stress on new information, contrastive stress for emphasis, and the reduction of unstressed syllables in natural speech. **EFL.5.3.d.30.** Global issues: climate change and environmental responsibility, gender equality and non-discrimination, migration and belonging, digital rights and algorithmic bias, and youth civic engagement. **EFL.5.2.d.34.** Environmental and community responsibility expressed in English: vocabulary for describing environmental actions; concepts of the rights of nature and *Sumak Kawsay;* and participation in cause-driven school and community projects. **EFL.5.4.d.37.** Self-assessment and peer assessment in language learning: rubric criteria for spoken and written production at B1; consolidated error analysis; constructive feedback language; and the distinction between accuracy, fluency, and range.	**EFL.5.4.p.32**. Revise one's own and peers' drafts using a rubric that covers content, organization, language range, accuracy, and audience awareness, and provide constructive written feedback. **EFL.5.4.p.33**. Rewrite the draft to improve cohesion and grammatical accuracy, making targeted corrections to verb tenses, connectors, article use, and vocabulary range. **EFL.5.4.p.35**. Write short public service announcements and awareness messages using clear structure (hook, information, call to action), direct address, and imperative or modal constructions. **EFL.5.2.p.42**. Monitor comprehension and production during a task using checklists, self-assessment rubrics, and peer feedback, and adjust strategies as needed. **EFL.5.4.p.44.** Reflect on language errors, identify patterns (e.g., consistent tense confusion, missing articles, calques from Spanish), and set specific improvement goals for the next task. **EFL.5.2.p.46.** Communicate ideas about environmental responsibility, sustainable practices, and community actions in English, using vocabulary for environmental topics and the rights of nature. **EFL.5.4.p.47.** Use English to participate in local and global cause-driven projects — anti-discrimination campaigns, environmental initiatives, heritage documentation — contributing written and spoken texts to shared community purposes.	**EFL.5.4.a.16.** Show commitment to accuracy and improvement in language production, using feedback from rubrics, peers, and teachers as a resource for growth rather than a judgment. **EFL.5.4.a.17.** Value self-assessment and peer assessment as fair and useful tools for learning, engaging with them honestly and constructively. **EFL.5.2.a.19.** Show commitment to environmental responsibility by using English to communicate about sustainability, the rights of nature, and community-based environmental actions. **EFL.5.4.a.21.** Demonstrate a sense of responsibility toward the school community by using English skills in service of collective well-being — through campaigns, awareness messages, and shared documentation.

PROGRAMA PILOTO

Methodological guidlines

Learning is organized around project-based learning through the creation of public service announcements (PSAs) focused on community well-being. Students analyze mentor texts, research relevant topics, design messages, and revise their work based on audience feedback. The process integrates rhetorical-genre apprenticeship and audience-research protocols, allowing learners to understand how language, structure, and evidence influence communication. Collaborative work with rotating roles supports script writing, production, feedback collection, and revision. Activities include identifying community needs, developing research notes, drafting scripts with hooks, information, consequences, and calls to action, producing audiovisual materials, and reflecting on the final product. Through this process, students strengthen persuasive communication, ethical language use, and responsible participation in their communities.

Interdisciplinary connections

English connects with different areas of knowledge through the creation of public service announcements focused on community well-being. It relates to Citizenship Education by developing public communication, recommendations, and inclusive language for social participation. It connects with Health and Well-being Education through the use of evidence-based information about health topics and responsible messages. It relates to Natural Sciences and Sustainability by communicating environmental actions and using data to support community initiatives. It connects with Language and Literature through the analysis of genre structure, persuasive language, and revision processes in English and Spanish. It integrates Information and Communication Technologies through audiovisual production and publication. It also relates to Mathematics and Arts Education by using data interpretation, sound, image, and design choices to strengthen effective communication.

PROGRAMA PILOTO

Specific Competency	Assessment indicators
CE.EFL.5.24. Collective production of an anthology of short autobiographies in English, including illustrations, writing, and editing, to document personal experiences and contribute to a shared institutional memory. CSE, CECA, CC.	I.EFL.5.24.1. Write a short autobiography in English using first-person narration, past tenses, and reflective language that recounts key experiences, describes significant people or places, and expresses personal values or ambitions. I.EFL.5.24.2. Produce an illustration — drawing or photograph — that connects meaningfully to the autobiographical text, and write a caption that explains the connection. I.EFL.5.24.3. Revise and edit one's own and peers' autobiographical texts using shared editing conventions and a rubric focused on voice, narrative coherence, language accuracy, and personal authenticity. I.EFL.5.24.4. Describe and justify the contribution of one's autobiography and illustration to the shared anthology, explaining what record of the graduating cohort it preserves and why that matters.

Knowledge		
Declarative	**Procedural**	**Atitudinal**
EFL.5.4.d.8. Academic and functional written genres: the report with sections (objective, procedure, results, conclusion), the formal and informal email, the biographical and autobiographical text, the photo-essay, the public service announcement, and meeting notes — structure and register conventions for each. **EFL.5.4.d.9.** Text organisation principles: introduction-body-conclusion structure, paragraph unity and development, cohesive devices (reference, substitution, conjunction, lexical chains), and the role of topic sentences and supporting details. **EFL.5.4.d.14**. Verb tenses for narrating and reporting: present simple for habits, states, and timeless truths; present continuous for current actions and future arrangements; present perfect simple with *just, already, yet, ever, never, for, since*; past simple for completed events; past continuous for background actions; past perfect simple for events before a past reference point; future with *will*, *going to*, and *shall*; and *was/were going to* for unfulfilled intentions.	**EFL.5.2.p.6.** Describe experiences, memories, dreams, and future ambitions using a range of tenses, discourse markers, and evaluative vocabulary. **EFL.5.4.p.7.** Recount events chronologically using past tenses, time markers, and sequence connectors, distinguishing background information from the main events. **EFL.5.3.p.22.** Read short literary excerpts — stories, autobiographical fragments, song lyrics — and identify themes, narrative voice, setting, and the ways the author creates meaning.	**EFL.5.3.a.10.** Value the act of reading as a way to encounter different lives, perspectives, and questions, and recognize literature as both a mirror and a window for understanding one's own experience and that of others. **EFL.5.4.a.13.** Engage cooperatively in collaborative writing, editing, and revision processes, treating peers' texts with respect and offering feedback that is specific, constructive, and kind. **EFL.5.4.a.16.** Show commitment to accuracy and improvement in language production, using feedback from rubrics, peers, and teachers as a resource for growth rather than a judgment.

PROGRAMA PILOTO

EFL.5.4.d.19. Connectors and discourse markers for written cohesion: contrast (*however, although, whereas, while, on the other hand*), cause (*because, since, as, due to*), result (*therefore, as a result, so, consequently*), addition (*in addition, furthermore, moreover*), exemplification (*for example, for instance, such as*), concession (*even though, despite, despite*), and condition (*if, unless, provided that*). **EFL.5.4.d.22.** Verb complementation patterns: infinitive with and without to after verbs and adjectives; gerund after verbs and prepositions; gerund as subject or object; phrasal verbs and verbs with prepositions; and verb + object + infinitive patterns (give/take/send + direct/indirect object). **EFL.5.3.d.23.** Vocabulary: Clothes, Daily life, Education, Entertainment and media, Environment, Food and drink, Free time, Health medicine and exercise, Hobbies and leisure, House and home, Language, People, Personal feelings experiences and opinions, Personal identification, Places and buildings, Relations with other people, Services, Shopping, Social interaction, Sport, The natural world, Transport, Travel and holidays, Weather — with particular attention to collocations, dependent prepositions, and register variation within each field. **EFL.5.4.d.35.** Contrastive linguistics of English: typological differences (word order, articles, null subject, periphrastic verbs), false friends, calques, syntactic transfer errors, and how awareness of these supports accuracy. **EFL.5.4.d.38.** Language-learning strategies: planning and goal-setting for a learning task; monitoring comprehension and production using checklists; self-correcting with grammar and vocabulary references; recording and recycling vocabulary through notebooks, flashcards, and spaced repetition; and reflecting on error patterns to set improvement goals.	**EFL.5.4.p.25.** Write autobiographical narratives and biographical texts using first- or third-person narration, past tense, chronological organization, and evaluative reflection on events. **EFL.5.4.p.29.** Produce captions and accompanying text for photo essays and vlogs that integrate visual and written information coherently, citing sources and crediting contributors. **EFL.5.4.p.32.** Revise one's own and peers' drafts using a rubric that covers content, organization, language range, accuracy, and audience awareness, and provide constructive written feedback. **EFL.5.4.p.33.** Rewrite the draft to improve cohesion and grammatical accuracy, making targeted corrections to verb tenses, connectors, article use, and vocabulary range. **EFL.5.4.p.34.** Integrate visuals and text in multimodal products (posters, digital publications, photo-essays, illustrated anthologies) so that each mode contributes meaningfully to the overall message. **EFL.5.4.p.44.** Reflect on language errors, identify patterns (e.g., consistent tense confusion, missing articles, calques from Spanish), and set specific improvement goals for the next task. **EFL.5.2.p.51.** Cooperate respectfully in pairs and groups: take turns, listen actively, give and receive constructive feedback, and help peers express their ideas.	**EFL.5.2.a.18.** Recognize that language errors are a natural and necessary part of learning, and develop resilience and a growth mindset in response to difficulty or correction. **EFL.5.4.a.23.** Value creative transformation of texts — remixes, alternative endings, changes of voice — as a legitimate and meaningful form of authorship that connects reading and writing. **EFL.5.4.a.24.** Engage with artistic and multimodal production — vlogs, photo-essays, audio guides, illustrated anthologies — as expressive acts that contribute one's own voice to a shared cultural record.

PROGRAMA PILOTO

Methodological guidlines
The methodological approach is organized around project-based learning through the creation of a collective anthology of short autobiographies in English, supported by a writer's workshop and narrative inquiry. Students explore personal experiences, select meaningful life threads, write autobiographical texts, and create original illustrations that complement their narratives. The process promotes reflection, identity, and respect for diverse voices through collaborative reading, feedback, and revision. Activities include analyzing autobiographical models, planning ideas, drafting, illustrating, revising, and preparing a shared publication for a real audience. Rotating roles encourage active listening, constructive feedback, and responsibility throughout the process. Through this experience, students strengthen written communication, narrative organization, language accuracy, creative expression, and appreciation of personal and collective memories.
Interdisciplinary connections
English connects with different areas of knowledge through the creation of autobiographical texts and a collective anthology. It relates to Language and Literature by exploring autobiography as a literary form and comparing writing traditions in English and Spanish. It connects with Artistic Studies by integrating illustrations as meaningful elements that interact with written narratives. It relates to Philosophy by reflecting on identity, personal experience, and responsible self-expression. It connects with Health Education by recognizing writing and shared reading as practices that support adolescent emotional well-being. It relates to Citizenship Education through consent, collaboration, and respect for different voices. Finally, it connects with History by approaching family stories as personal historical documents based on memory and reflection.
