1.Introduction

English language learning in Ecuadorian General Basic Education (EGB) contributes to the comprehensive development of learners by strengthening their ability to communicate, interact, and participate in an increasingly interconnected and multilingual world. Within the framework of the Ecuadorian Constitution and the National Curriculum, English is understood not only as an additional language but also as a means to promote intercultural dialogue, respect for diversity, critical thinking, and lifelong learning.

This curriculum for English as a Foreign Language (EFL) in EGB Elemental adopts a competency-based approach that promotes the integrated development of knowledge, skills, attitudes, and values through meaningful learning experiences. At this educational stage, students begin to build the foundations of communicative competence by engaging in age-appropriate activities that foster listening, speaking, reading, and writing while encouraging curiosity, creativity, collaboration, and confidence in language use.

The curriculum recognizes that children learn languages most effectively through active participation, interaction, play, and authentic communication. Consequently, learning experiences are designed to connect English with learners' everyday lives, previous knowledge, and cultural contexts, while valuing Ecuador's linguistic and cultural diversity. In this way, English becomes a tool for understanding others, expressing ideas, and participating respectfully in local and global communities.

The curriculum is organized around competencies and learning progressions that guide the gradual development of communicative abilities throughout the sublevel. It provides teachers with a coherent framework for planning learning experiences, assessing student progress, and creating inclusive learning environments where every learner has opportunities to communicate, collaborate, and continue developing as confident and responsible users of English.

PROGRAMA PILOTO

2. Contribution of the discipline to the development of the key competencies

The teaching of English at EGB Elemental contributes to the network of key competencies through operational descriptors organized around situated A1 practices. Together, they show a curriculum in which language learning, citizenship, science, art, technology, well-being, and emotion are meaningfully integrated.

Communicative Competence (CC) English expands communicative competence as learners identify information from short texts, connect ideas with their home language(s), express simple opinions, organize meaning through words, drawings, and gestures, and participate in basic exchanges, discovering that communication involves more than one language and more than one perspective.

Mathematical, Scientific and Technological Competence (CMCT) English connects with this competence as learners count, identify shapes, describe changes in nature, share observations, explain simple choices, and participate in environmental-care projects, using the language as a tool to think scientifically and understand realities beyond the words used to name them.

Citizenship, Identity and Cultural Awareness Competence (CCCC) English supports learners' participation in a community of difference through experiences where they describe people, places, and actions, build classroom rules, explore kindness and conflict, value family and community expressions, and recognize that diverse languages and cultures can coexist.

Digital Competence (CD) English supports learners' first digital sensibilities as they identify digital objects and actions, follow safety rules, create simple content, give credit, use kind language, ask for help, recognize basic problems, and follow instructions, becoming participants who inhabit the digital world with care and responsibility.

Innovation and Transformation Competence (CIT) English nurtures innovation through experiences where learners identify needs, share ideas, explore options, create projects, adjust their work, plan activities, share responsibilities, use materials carefully, and collaborate, recognizing fairness and teamwork through expressions such as "Let's try," "Your idea is good," and "I can help."

Socio-emotional Competence (CSE) English supports learners' emotional development as they express feelings, recognize others' emotions, make choices, ask for help, wait respectfully, cooperate, and use expressions such as "please," "sorry," and "thank you," discovering that communication in another language can be a space where vulnerability and care coexist.

Cultural and Artistic Expressions Competence (CAEC) English encourages learners to explore songs, stories, artistic expressions, and cultural experiences from their communities and others. They listen, sing, observe, name, and describe people, objects, and feelings, recognizing that literature, traditions, and creative expressions include diverse voices and meaningful experiences.

3.COMMUNICATIVE THREADS

1. Oral Comprehension

Oral comprehension at EGB Elemental develops progressively from the recognition of sounds, rhythms, intonations, gestures, and routines toward the understanding of words, expressions, and short exchanges in English. Learners construct meaning by combining linguistic elements with visual, contextual, and non-verbal cues such as images, objects, gestures, and movement.

Teaching listening involves creating meaningful opportunities to hear English through songs, stories, instructions, and interactions. Repetition and re-listening are essential processes that allow children to deepen comprehension and gradually move from understanding familiar expressions in supported contexts to interpreting short instructions, descriptions, and narratives.

2. Oral Interaction and Production

Oral interaction and production in EGB Elemental allow learners to use their voice in English through gradual and meaningful experiences. At this stage, oral development should precede writing, supported by songs, chants, dialogues, gestures, images, objects, and role-plays that facilitate communication.

The learning environment should promote confidence, where mistakes are understood as part of learning and students experience success through short and predictable exchanges. Learners participate in greetings, requests, descriptions, questions, and simple conversations, using routines and collaborative activities. Pair work, group interactions, and role-plays encourage diverse voices and help children communicate with support.

3. Reading Comprehension

Reading comprehension in EGB Elemental English develops from learners' emerging literacy in their first language(s) and through meaningful texts connected to their age, interests, and experiences. It involves phonological awareness, sound-letter relationships, vocabulary development, prior knowledge, and the construction of meaning.

Students engage with diverse texts such as stories, informational texts, labels, instructions, posters, songs, and poems. Reading activities promote understanding, curiosity, prediction, and the ability to identify information. Literature is approached as a plural space that includes global, Ecuadorian, family, and community voices, recognizing diverse knowledge and experiences.

4. Written Production

Written production in EGB Elemental English develops alongside learners' emerging literacy in their first language(s). Through writing activities such as labeling, completing sentences, creating short messages, captions, and lists, students explore English as another writing system and strengthen their understanding of written communication.

Written tasks should have meaningful purposes and be supported by oral and visual resources. Short texts are valuable because they allow learners to express ideas, compare writing systems, develop confidence, and progressively approach conventional forms of written English while valuing their learning processes.

PROGRAMA PILOTO

4.Specific Competencies Matrix

Specific Competences	Assessment indicators
SC.EFL.2.1. Expression of curiosity about the place we live in through simple questions and answers, to identify where we are and where we live, and to recognize shared spaces with others, understanding place as a space of belonging and mutual care. CC; CMCT, CCICC, CIT, CSE.	I.EFL.2.1.1. Asks and answers simple questions about where they are, their environment, and where they live, using expressions such as Where are you? / I am at school / I live in..., with support from images, gestures, and familiar vocabulary. I.EFL.2.1.2. Names nearby places using simple words or phrases — classroom, school, home, neighborhood, and community — as part of their everyday environment. I.EFL.2.1.3. Shows curiosity about the names of places in their environment and can name them in both languages.

Knowledge		
Declarative	**procedural**	**attitudinal**
EFL.2.d.1. English as a language learned and shared alongside the languages used at home and in the local community. EFL.2.d.2. English as a shared language used to communicate with people from different places, cultures, and communities. EFL.2.d.7. Words and expressions about nearby places: classroom, school, home, neighbourhood, and community. EFL.2.d.16. Simple affirmative sentences using expressions such as I am, you are, this is, and there is. EFL.2.d.17. Simple questions to ask about people, places, quantities, and everyday situations with what / where / who / how / how many..	EFL.2.p.1. Listens to greetings, introductions, short instructions and simple questions. EFL.2.p.6. Names places, people, objects and beings of the environment. EFL.2.p.13. Asks and answers about identity, place and mood.	EFL.2.a.1. Shows curiosity about how things are said in English and other languages

PROGRAMA PILOTO

Methodological guidelines
Develop learning situations based on learners' immediate environment, encouraging them to communicate about familiar places, people, and everyday experiences through meaningful interactions in English. Use authentic visual resources, real objects, images, songs, stories, and collaborative tasks that connect new vocabulary with learners' prior knowledge and cultural context. Provide opportunities for repeated oral practice in supportive environments where learners feel confident to participate, ask questions, describe, and exchange simple information. Promote Project-Based Learning through collaborative activities that require learners to observe, organize, represent, and share information about their surroundings using English. Encourage active participation, rotating roles, peer interaction, and the integration of local cultural references, ensuring that communication develops through authentic purposes while respecting the linguistic and cultural diversity of the classroom.
Interdisciplinary connections
English learning at EGB Elemental is strengthened through connections with different areas of knowledge. Social Studies provides contexts related to learners' territory, community, and daily experiences, which become opportunities for communication in English. Natural Sciences contributes elements from the environment, such as plants, animals, weather, and water, that learners can identify and describe. Mathematics supports the use of quantities, locations, and comparisons. Cultural and Artistic Education, Language and Literature, and Physical Education enrich learning through creative expression, storytelling, movement, and exploration. These interdisciplinary connections allow learners to use English as a tool to understand, represent, and communicate about their world.

Specific Competences	Assessment indicators
SC.EFL.2.2. Expression of mutual care through greetings and introductions, using simple exchanges of name, age, and place of residence, to build recognition among classmates and sustain respectful interaction, respecting each person's pace of communication.CC, CCICC, CSE, CECA	I.EFL.2.2.1. Greets, says goodbye, thanks, and apologizes using simple expressions such as hello, goodbye, thank you, and sorry in brief classroom interactions. I.EFL.2.2.2. Gives and asks for basic personal information, including name, age, and where they live, while taking turns and respecting classmates' participation and learning pace. I.EFL.2.2.3. Participates in simple English introductions and classroom interactions with confidence, even when using developing pronunciation and vocabulary.

PROGRAMA PILOTO

Knowledge		
Declarative	**procedural**	**attitudinal**
EFL.2.d.8. Words and expressions about family, close people, and relationships of care. EFL.2.d.15. Simple expressions for greeting, saying goodbye, thanking, and interacting in everyday situations. EFL.2.d.16. Simple affirmative sentences using expressions such as I am, you are, this is, and there is. EFL.2.d.17. Simple questions to ask about people, places, quantities, and everyday situations with what / where / who / how / how many. EFL.2.d.22. Short oral texts used in everyday classroom and community interactions: greetings, introductions, songs, rhymes, riddles, instructions, and simple descriptions. EFL.2.d.27. Basic practices for participating in conversations: taking turns, listening attentively, looking at the speaker, and repeating or asking for clarification when needed.	EFL.1.p.1. Listens to greetings, introductions, short instructions and simple questions. EFL.2.p.5. Says one's own name, age and place of residence with simple phrases. EFL.2.p.12 . Greets, takes leave, thanks and apologizes in short exchanges. EFL.2.p.13. Asks and answers about identity, place and mood.	EFL.2.a.3. Is willing to speak in English.
Methodological guidlines		
Develop learning situations based on meaningful social interactions that allow learners to introduce themselves, recognize others, and express personal information through simple English exchanges. Use greetings, songs, dialogues, visual supports, gestures, and classroom routines to create safe environments where children participate according to their own communication pace. Promote Project-Based Learning through collaborative activities that encourage learners to share their identity, listen respectfully, ask and answer simple questions, and build relationships within the classroom community. Incorporate personal, family, and cultural references from learners' contexts to strengthen belonging and intercultural awareness. Provide multiple ways of participation through oral, visual, and gestural resources, ensuring inclusive opportunities for all learners to communicate.		

PROGRAMA PILOTO

Interdisciplinary connections
English learning is strengthened through connections with different areas of knowledge. Social Studies contributes by exploring learners' identities, families, communities, and places of belonging, which become meaningful contexts for oral communication in English. Cultural and Artistic Education supports the expression of personal identity through visual representations, symbols, and creative productions that accompany introductions and interactions. Language and Literature reinforces listening, turn-taking, and respectful communication practices. Mathematics contributes through the recognition and comparison of personal information such as ages and quantities. These interdisciplinary connections allow learners to use English to recognize themselves and others while building respectful relationships within their community.

Specific Competences	Assessment indicators
SC.EFL.2.3. Recognition of protective signs in the places we live through the reading of words, drawings, and symbols, to interpret notices at school, in the street, and at home, valuing care as a shared form of protection between adults and children. CC, CCICC, CD.	I.EFL.2.3.1. Recognizes and names simple signs and notices from everyday environments — exit, stop, danger, school, no — by connecting symbols, colors, and words. I.EFL.2.3.2. Uses simple phrases to explain what to do and what not to do when responding to safety signs at school, at home, and in the community.

Knowledge		
Declarative	**procedural**	**attitudinal**
EFL.3.d.7. Words and expressions about nearby places: classroom, school, home, neighbourhood, and community. EFL.3.d.23. Short written texts used in everyday situations: notices, signs, labels, invitations, lists, and illustrated cards. EFL.3.d.26. Basic features of signs and notices from the local environment: symbols, words, colours, and location.	EFL.3.p.20. Recognition of written words and short phrases in everyday environmental texts such as notices, signs, and labels, supporting initial reading comprehension through familiar vocabulary and basic print recognition. EFL.3.p.21. Interprets basic written and visual signs related to care, safety, and protection in school, on the street, and at home, using key vocabulary, symbols, and contextual cues to determine meaning.	EFL.3.a.23. Cooperates with classmates in shared tasks and activities.

PROGRAMA PILOTO

Methodological guidlines
Develop learning situations based on familiar written and visual texts from learners' everyday environments, such as signs, notices, labels, and symbols related to school, home, and community spaces. Encourage learners to observe, identify, and interpret meaning by connecting words, images, colours, and contextual clues. Use Project-Based Learning through collaborative activities where students collect, represent, and describe protective signs, developing initial reading comprehension through meaningful purposes. Incorporate real photographs, visual supports, word strips, and classroom displays to strengthen recognition of familiar vocabulary and short phrases. Promote reflection on signs as shared forms of care, helping learners understand that reading in English supports their participation in safe and respectful environments.
Interdisciplinary connections
English learning connects with different areas of knowledge through the interpretation of written and visual texts from learners' environments. Social Studies provides contexts related to streets, schools, homes, and communities, which become meaningful sources for reading signs and notices. Natural Sciences contributes through texts and symbols related to health, hygiene, water, food, and environmental care. Cultural and Artistic Education strengthens understanding of icons, colours, and visual communication. Mathematics supports classification, sequencing, and organization of information. Language and Literature reinforces reading strategies and meaning construction, while Physical Education connects safety instructions with movement and responsible participation in shared spaces.

Specific Competences	Assessment indicators
SC.EFL.2.4. Production of short notices for the classroom through posters with drawings and words in the languages used at home and in the community and in English, to invite classmates, families, and neighbors to share moments, promoting empathy and the classroom as a shared space. CC, CCICC, CIT, CD.	I.EFL.2.4.1. Creates short posters using drawings and familiar words in English and in the local community's languages to invite classmates to shared classroom activities and celebrations. I.EFL.2.4.2. Copies familiar words and simple phrases with visual support, using basic English writing conventions, such as initial capital letters and end punctuation. I.EFL.2.4.3. Combines words, images, and colors in posters to clearly communicate a message to classmates, families, and members of the local community.

PROGRAMA PILOTO

Knowledge		
Declarative	**procedural**	**attitudinal**
EFL .2.4.d.5. Basic written conventions of English, including the alphabet, capitalization, and common punctuation. EFL.2.4.d.7. Words and expressions about nearby places: classroom, school, home, neighbourhotod, and community. EFL.2.4.d.20. Initial use of basic connectors to join ideas and express simple relationships. EFL.2.4.d.20. Initial use of basic connectors to join ideas and express simple relationships. EFL.2.4.d.23. Short written texts used in everyday situations: notices, signs, labels, invitations, lists, and illustrated cards. EFL.2.4.d.24. Different supports and formats for short texts in classroom and community environments: paper, cardboard, boards, walls, drawings, and screens.	EFL.2.4.p.24. Associates written language, images, and oral language to support meaning. EFL.2.4.p.25. Writes and copies familiar words and short phrases with visual support and basic decoding. EFL.2.4.p.26. Draws and labels objects, beings, and places of the environment, connecting images with written words. EFL2.4.p.27. Elaborates short posters with drawings and words for the classroom and the community to communicate simple messages.	EFL.2.4.a.22. Participates responsibly in the classroom's collective agreements.
Methodological guidlines		
Develop learning situations that provide meaningful opportunities for learners to produce short written texts connected to real communicative purposes in their classroom and community contexts. Use invitations, posters, labels, cards, and digital formats as models to help students identify how words, images, symbols, and simple structures work together to communicate messages. Promote Project-Based Learning through collaborative writing processes where learners plan, create, revise, and share short texts with the support of visual resources, word banks, and teacher guidance. Encourage learners to combine drawings, familiar words, and simple English expressions to express ideas clearly and warmly, recognizing writing as a way to connect with others and participate in shared experiences.		

PROGRAMA PILOTO

Interdisciplinary connections
English learning is connected with different areas of knowledge through the creation of meaningful written texts for real audiences. Social Studies provides contexts related to school, families, and communities, which become purposes for writing and sharing messages. Cultural and Artistic Education strengthens the visual organization of texts through images, colours, layouts, and creative representations. Mathematics contributes through the organization of information such as dates, times, quantities, and audiences. Language and Literature reinforce planning, drafting, reading, and revising short texts. Natural Sciences and Physical Education contribute themes and experiences that can be communicated through invitations, posters, and other written formats.

Specific Competences	Assessment indicators
SC.EFL.2.5. Sensitivity toward those who need help, using simple expressions to ask for, offer, and thank for support in the languages used at home and in the community, and in English, to sustain care among classmates when something hurts, is missing, or feels difficult, recognizing that asking for help and offering it are ways of building the classroom as a safe place. CC, CSE, CCICC,	I.EFL.2.5.1. Uses simple expressions to request help (Can you help me, please?) and to offer help (I can help you. Here you are.) in classroom settings. I.EFL.2.5.2. Uses thank you to express gratitude and acknowledges help from others with words or gestures. I.EFL.2.5.3. Asks for repetition, clarification, or examples (Again, please. What is it? Can you show me?) when they do not understand.

Knowledge		
declarative	**procedural**	**attitudinal**
EFL.2.2.d.15. Simple expressions for greeting, saying goodbye, thanking, and interacting in everyday situations EFL.2.2.d.19. Simple expressions and imperatives used to ask, invite, offer help, and respond politely (e.g., come, look, listen, help, please, thank you, sorry) EFL.2.2.d.28. Basic politeness expressions used in everyday classroom interactions, including saying “please,” “thank you,” “sorry,” “excuse me,” and “you’re welcome.”	EFL.2.2.p.14 .Requests help, permission and information with politeness formulas. EFL.2.2.p.15. Offers help, objects and attention to a classmate. EFL.2.2.p.37. Asks for repetition, clarification or example when something is not understood.	EFL.2.2.a.4. Recognizes that learning English is shared work. EFL.2.2.a.10. Asks for help when needed and offers it when possible. EFL.2.2.a.24. Shares with confidence what is learned, asked, and explored in classroom activities.

PROGRAMA PILOTO

Methodological guidlines
Develop learning situations based on real classroom interactions where learners use simple English expressions to ask for help, offer support, thank others, and respond respectfully. Use dialogues, songs, chants, role-plays, visual resources, and everyday situations to provide meaningful opportunities for oral participation and build confidence in communication. Promote Project-Based Learning through collaborative routines that allow learners to practice short exchanges, take different communication roles, and connect English expressions with experiences of care and cooperation. Encourage the use of gestures, images, and familiar contexts as supports for oral interaction, ensuring that learners participate according to their own communication pace. Through these experiences, English becomes an additional resource for building respectful relationships and mutual care
Interdisciplinary connections
English learning is connected with different areas of knowledge through situations that promote communication, care, and collaboration. Social Studies provides contexts related to the classroom, school, and community relationships where learners ask for and offer help. Cultural and Artistic Education supports the expression of experiences and emotions through drawings and visual representations. Mathematics contributes through the organization and classification of everyday situations. Language and Literature strengthens oral expression, turn-taking, and storytelling. Physical Education promotes cooperative interactions through games and shared activities, while Natural Sciences connects communication with body care, health, and well-being.

Specific Competences	Assessment indicators
SC.EFL.2.6. Mediation among languages in the classroom through the naming of meaningful words from the community within simple sentences, to sustain the entry of community knowledge into the classroom, valuing the languages of Ecuador as a common heritage.CC, CCICC, CECA.	I.EFL.2.6.1. Identifies words that are similar or shared between English and the local community's languages, using pictures and examples. I.EFL.2.6.2. Uses drawings or gestures to communicate the meaning of a word they do not yet know in English.

PROGRAMA PILOTO

Knowledge		
declarative	**procedural**	**attitudinal**
EFL.2.2.d.1. English as a language learned and shared alongside the languages used at home and in the local community. EFL.2.4.d.5. Basic written conventions of English, including the alphabet, capitalization, and common punctuation. EFL.2.2.d.14. Words and expressions from local languages that are shared in classroom experiences as part of the common repertoire.	EFL.2.2.p.30. Names words from the languages of the place in short English phrases. EFL.2.1.p.31. Recognizes words shared or close between the languages of the place and English. EFL.2.1.p.3. Recognizes words that are shared or similar between the languages of the place and English.	EFL.2.2.a.1. Shows curiosity about how things are said in English and other languages. EFL.2.2.a.2. Accepts English as one language among others, with equal value to other languages. EFL.2.2.a.5. Values the languages of Ecuador as part of the classroom repertoire. EFL.2.2.a.6. Respects people who speak different languages. EFL.2.2.a.7. Appreciates words from local languages used in the classroom.

Methodological guidlines

To develop this competency, the learning situation begins by recognizing the words present in children's families and communities. Learners select meaningful words related to foods, places, tools, or celebrations, explain their meanings, and share them in the classroom. Through Project-Based Learning, students create "Words that Travel," a set of cards where they include words from their languages together with simple English expressions. Through conversations, questions, drawings, and oral presentations, learners practice mediation, listen to their classmates, and value the linguistic diversity of Ecuador. English becomes a tool for sharing community knowledge and recognizing family languages as part of the learning process.

Interdisciplinary connections

This competency recognizes the linguistic and cultural diversity that children bring from their families and communities. Social Studies contributes through the exploration of families, communities, and shared practices that provide the words welcomed in the English classroom. Cultural and Artistic Education connects through the creation of cards, the design of the word wall, and the inclusion of songs and dances. Natural Sciences relates words about foods, plants, animals, and remedies to the local environment. Mathematics supports counting, grouping, and organizing words by categories. Language and Literature strengthens naming, retelling, and reading short sentences, while Physical Education connects when words are expressed through songs or movement.

PROGRAMA PILOTO

Specific Competences	Assessment indicators
SC.EFL.2.7. Demonstration of interest in what is done together with others, through simple expressions, to ask, suggest and accept invitations to play, sing, draw and rest with classmates, taking care that everyone shares what they give. CC, CIT, CSE, CCICC.	I.EFL.2.7.1. Asks and answers questions about shared activities (Do you want to play? Yes, I do. / No, thank you.) using familiar A1-level expressions. I.EFL.2.7.2. Invites classmates to play, sing, draw, or rest using simple phrases and polite imperatives. I.EFL.2.7.3. Respects speaking turns and supports classmates' participation during classroom activities.

Knowledge		
declarative	**procedural**	**attitudinal**
EFL.2. 2.d.15. Simple expressions for greeting, saying goodbye, thanking, and interacting in everyday situations. EFL.2.2.d.27. Basic practices for participating in conversations: taking turns, listening attentively, looking at the speaker, and repeating or asking for clarification when needed. EFL.2.2.d.28. Basic politeness expressions used in everyday classroom interactions, including saying "please," "thank you," "sorry," "excuse me," and "you're welcome." EFL.2.2. d.36. Basic agreements for living together in the classroom, including mutual care, taking turns, helping others, and non-aggression.	EFL.2.1.p.1. Listens to greetings, introductions, short instructions and simple questions. EFL.2.2.p.6. Names places, people, objects and beings of the environment. EFL.2.2.p.12. Greets, takes leave, thanks and apologizes in short exchanges. EFL.2.2.p.16. Accepts invitations and invite others to shared activities using simple phrases.	EFL.2.2.a.3. Is willing to speak in English. EFL.2.1.a.8. Listens attentively to others in English and in the languages of the place. EFL.2.2.a.9. Respects speaking turns in classroom interactions.

PROGRAMA PILOTO

Methodological guidlines

Learning situations should encourage children to invite, accept, and participate in shared games, songs, drawing activities, and moments of rest through simple English expressions in meaningful classroom interactions. Using Project-Based Learning (PBL), learners collaboratively create The Shared Play Book, assuming rotating roles such as inviter, suggester, accepter, turn-keeper, and witness. Through chants, role-plays, and repeated oral routines, children practice expressions for inviting, taking turns, and thanking while developing respectful participation and collaboration.

Thinking routines such as Connect–Extend–Challenge, together with songs, games, and short audio or video recordings, reinforce oral interaction and reflection. These experiences promote active listening, turn-taking, and inclusion, helping learners use English naturally to build positive relationships and participate confidently in shared classroom activities.

Interdisciplinary connections

Shared games, songs, drawing activities, and moments of rest create meaningful links between English and other curriculum areas. Social Studies contributes local games, songs, and community traditions; Cultural and Artistic Education enriches learning through music, dance, and visual expression; Physical Education reinforces cooperation, movement, and turn-taking; Mathematics supports counting players, sequencing game steps, and organizing turns; Language and Literature strengthens listening, oral interaction, and retelling experiences; while Natural Sciences connects play, rest, breathing, and body care with healthy living. These interdisciplinary connections allow children to use English meaningfully while participating in shared experiences that promote collaboration, communication, and well-being across different learning contexts.

Specific Competences	Assessment indicators
SC.EFL.2.8. Recognition that people think and feel in different ways, demonstrated by listening and sharing what each person brings to the classroom — words from their community, foods, games, songs, and stories — and by valuing the experiences, knowledge, and contributions each person shares with others. CC, CCICC, CSE, CCICC.	I.EFL.2.8.1. Listens attentively and uses simple phrases to name what classmates bring to the classroom, such as words, food, games, songs, and stories. I.EFL.2.8.2. Treats classmates who think or feel differently with respect and care. I.EFL.2.8.3. Recognizes that language learning is enriched by the experiences, perspectives, and knowledge others bring from their communities.

PROGRAMA PILOTO

Knowledge		
Declarative	**procedural**	**attitudinal**
EFL2.2.d.1. English as a language learned and shared alongside the languages used at home and in the local community. EFL.22.d.14. Words and expressions from local languages that are shared in classroom experiences as part of the common repertoire. EFL.2.2.d.17. Simple questions to ask about people, places, quantities, and everyday situations with what / where / who / how / how many. EFL.2.2.d.27. Basic practices for participating in conversations: taking turns, listening attentively, looking at the speaker, and repeating or asking for clarification when needed. EFL.22.3.d.32. Awareness of the diversity of communities that learn or use English in different places and contexts worldwide.	EFL.2.2.p.45. Recognizes people in the classroom who support shared practices and learning.	EFL.2.2.a.5. Values the languages of Ecuador as part of the classroom repertoire. EFL.2.2.a.6. Respects people who speak different languages. EFL.2.2.a.8. Listens attentively to others in English and in the languages of the place. EFL.2.a.11. Treats with respect those who think or feel differently. EFL.2.3.a.19. Recognizes communities around the world that use or learn English in their own contexts.
Methodological guidlines		
To develop this competency, learning situations should promote a listening circle where children share words, foods, games, songs, and stories from their homes and communities. Through Project-Based Learning (PBL), learners develop The Circle of Voices, a recurring oral product where each child takes turns to share what they bring, listen to classmates, ask questions, and thank others for sharing. Rotating roles such as bringer, listener, asker, echoer, and keeper support active participation and respectful interaction. Using short English phrases, chants, and the See–Think–Wonder routine, children recognize that each home has different experiences and that English can be used as another language to introduce, appreciate, and share these contributions.		

PROGRAMA PILOTO

Interdisciplinary connections
Children's contributions from their homes and communities allow English to connect with different areas of learning through The Circle of Voices. Social Studies provides the substance of family, school, and community experiences that each child brings to the circle. Cultural and Artistic Education connects through songs, drawings, and small dances that represent shared expressions. Natural Sciences relates to foods, plants, and animals mentioned during the circles and their connection with the environment and well-being. Mathematics supports counting voices, grouping contributions, and organizing turns. Language and Literature strengthens listening, sharing, and retelling small stories. Physical Education connects through gestures of welcome, signs for bring, share, and listen, and the organization of the circle.

Specific Competences	Assessment indicators
SC.EFL.2.9. Recognition of moods and feelings by identifying simple expressions in short stories, rhymes, and songs, to approach the literature of children and communities that learn or speak English in their own places, valuing the diverse ways of feeling and naming. CC, CSE, CECA.	I.EFL.2.9.1. Identifies simple expressions that name emotions (happy, sad, tired, scared, excited, calm) in short tales, rhymes, and songs, with support from images, gestures, and sound. I.EFL.2.9.2. Uses simple phrases to describe how they feel and how characters in stories or songs feel. I.EFL.2.9.3. Recognizes that in different English-speaking communities, emotions are named and experienced in diverse ways.

declarative	**procedural**	**attitudinal**
EFL.2.1.d.3. Different pronunciations, accents, and ways of speaking English in diverse communities and places. EFL.2.2.d.12. Words and expressions to communicate emotions, likes, dislikes, and preferences. EFL.2.3.d.25. Basic elements of illustrated children's books: cover, title, author, and illustrations. EFL.2.2.d.31. Basic vocabulary and short phrases to name simple emotions, sucAh as happy, sad, tired, scared, excited, and calm. EFL.2.3.d.32. Awareness of the diversity of communities that learn or use English in different places and contexts worldwide.	EFL.2.1.p.2. Recognizes known words within short songs, rhymes and tales. EFL.2.1.p.3. Identifies the general topic of a short audio using keywords and visual supports. EFL.2.p.22. Reads short illustrated tales, using images and keywords to support understanding. EFL.2.p.34. Uses images, gestures, and sounds as supports for understanding English.	EFL.2.3.a.19. Recognizes communities around the world that use or learn English in their own contexts.
Methodological guidlines		
To develop this competency, learning situations should use short illustrated stories, rhymes, and songs as opportunities to recognize feelings through images, words, and simple English phrases. Through Project-Based Learning (PBL), learners create The Book of Feelings, a class anthology where they select short texts, identify feelings, and connect pictures with written expressions. Using routines such as See–Think–Wonder and Stop–Look–Listen–Think–Respond, children observe, interpret, and respond to texts through visual and oral supports. Rotating roles such as picture-reader, word-finder, wonderer, echoer, and keeper promote participation during shared reading. Through stories, rhymes, and songs, children recognize that feelings can be expressed in different languages and that English provides another way to name emotions and understand other voices.		

PROGRAMA PILOTO

Interdisciplinary connections
Short illustrated stories, rhymes, songs, and the exploration of feelings create meaningful connections between English and other curriculum areas. Language and Literature provides the foundation through reading stories, rhymes, and songs that support comprehension and expression. Cultural and Artistic Education connects through songs, rhymes, drawings, and creative representations of feelings. Social Studies contributes through the children, families, and places represented in the texts. Natural Sciences relates to animals, plants, rain, rivers, and seasons that appear in the stories. Physical Education reinforces gestures and signs connected with emotions and body expression. Mathematics supports counting pages, organizing the sequence of texts, and grouping books according to feelings.

Specific Competences	Assessment indicators
SC.EFL.2.10. Valuing the festive life of our place through simple descriptions to name communal festivities, preserving the living memory of those who celebrate now and those who celebrated before. CCICC, CECA,	I.EFL.2.10.1. Uses simple phrases to name community celebrations and shared cultural events (Inti Raymi, Carnival, Día de los Difuntos, Pase del Niño) in English and in the local community's languages. I.EFL.2.10.2. Uses simple phrases to describe people who celebrate these events now and those who celebrated them in the past. I.EFL.2.10.3. Enjoys community celebrations, songs, and stories as meaningful forms of knowledge.

EFL.2.2.d.11. Words and expressions related to games, songs, celebrations, and stories from the local culture and community. EFL.2.2.d.14. Words and expressions from local languages that are shared in classroom experiences as part of the common repertoire. EFL.2.2.d.34. Festivities, games, songs, and stories transmitted and shared within the community.	EFL.2.2.p.11. Narrates everyday community events using simple oral phrases. EFL.2.2.p.30. Names words from the languages of the place in short English phrases.	EFL.2.2.a.5. Values the languages of Ecuador as part of the classroom repertoire. EFL.2.2.a.7. Appreciates words from local languages used in the classroom. EFL.2.2.a.16. Enjoys the songs, games, stories and festivities shared in the community. EFL.2.2.a.17. Values the living memory of the place as knowledge.

PROGRAMA PILOTO

Methodological guidlines

To develop this competency, the learning situation begins with a question that invites children to recognize and share the festivities, games, songs, and stories of their community: what do we celebrate, and how can we tell others about it? The teacher gathers examples from families and the neighborhood, and children explore short illustrated texts in English about local celebrations. Through images, short phrases, and oral reading, they identify words related to food, songs, dances, and shared traditions.

The learning process is developed through Project-Based Learning (PBL) with the product "The Calendar of Our Festivities", where children create illustrated pages about celebrations from their context. Using routines such as See–Think–Wonder and Stop–Look–Listen–Think–Respond, they read, name, and share community experiences in English. The process values local languages and cultural knowledge, recognizing festivities, games, songs, and stories as part of the living memory of the community.

Interdisciplinary connections

The interdisciplinary connections of this competency allow children to relate the festivities, games, songs, and stories of their community with other areas of knowledge. Through the Social Studies area, family, neighborhood, region, and community traditions provide the content for The Calendar of Our Festivities. Cultural and Artistic Education connects through songs, dances, drums, crafts, and other artistic expressions present in celebrations. Language and Literature supports the reading and sharing of shorti llustrated texts about community experiences. Natural Sciences relates seasons, harvests, plants, and animals connected with festivities. Mathematics contributes through counting days, organizing months, and comparing celebrations from before and now. Physical Education connects through movement, traditional games, and dance steps.

Specific Competences	Assessment indicators
SC.EFL.2.11. Exploration of singing as a shared practice through the performance of short songs to connect with children and communities that learn or speak English in different places, recognizing how each community expresses its voice, feelings, and traditions. CC, CECA.	I.EFL.2.11.1. Sings short English songs appropriate for the level, respecting rhythm, intonation, and familiar words. I.EFL.2.11.2. Recognizes familiar words in short songs from diverse communities that also use English. I.EFL.2.11.3. Distinguishes different pronunciations and accents of English in short songs.

EFL.2.2.d.2. English as a shared language used to communicate with people from different places, cultures, and communities. EFL2.2.d.3. Different pronunciations, accents, and ways of speaking English in diverse communities and places. EFL.2.2.d.4. Different English sounds and sound patterns, including those similar to and different from the languages of the local community. EFL.2.2.d.11. Words and expressions related to games, songs, celebrations, and stories from the local culture and community. EFL.2.2.d.22. Short oral texts used in everyday classroom and community interactions: greetings, introductions, songs, rhymes, riddles, instructions, and simple descriptions. EFL.2.2.d.32. Awareness of the diversity of communities that learn or use English in different places and contexts worldwide. EFL.2.2.d.34. Festivities, games, songs, and stories transmitted and shared within the community.	EFL.2.p.2. Recognizes known words within short songs, rhymes and tales. EFL.2.p.4. Distinguishes among diverse pronunciations and accents in short audio recordings. EFL.2.p.7. Repeats and intones rhymes, tongue twisters and short songs. EFL.2.2.p.8. Sings short and simple songs appropriate for the level. EFL.2.2.p.35. Rehearses pronunciation of new words and phrases. EFL.2.2.p.38. Uses simple memory strategies such as drawing, play, singing, and repetition to remember vocabulary.	EFL.2.2.a.2. Accepts English as one language among others, with equal value to other languages. EFL.2.2.a.16. Enjoys the songs, games, stories and festivities shared in the community. EFL.2.2.a.19. Recognizes communities around the world that use or learn English in their own contexts.

PROGRAMA PILOTO

Methodological guidlines
To develop this competency, the learning situation begins with a question: what songs do children sing in other places, and what do they tell us? The teacher and the children explore short song cards originally written in English by children, teachers, and communities from different parts of the world. Through images, listening, and reading the lyrics, children identify familiar words, follow repeated lines, and recognize that songs are also short texts that communicate experiences, feelings, and ideas. English is approached as a language that allows children to connect with other communities while relating the songs to their own experiences in Ecuador. The methodology is based on Project-Based Learning (PBL) through the product "The Songbook of the Class", a class anthology of short song cards in English with lyrics, images, and information about where the songs are sung. Children participate in rotating roles as picture-readers, line-finders, wonderers, echoers, and keepers. Reading routines such as See–Think–Wonder and Stop–Look–Listen–Think–Respond support the understanding of songs, while singing, repetition, and short reflections help children recognize that songs written in English connect their voices with those of children and communities from different places.
Interdisciplinary connections
Cultural and Artistic Education connects through singing short songs and creating the songbook. Language and Literature relates to reading lyrics, identifying repeated lines, and recognizing the structure of sung texts. Physical Education integrates breathing, posture, movement, and gestures used in songs. Natural Sciences connects elements such as rain, rivers, and animals mentioned in the songs with the study of the environment. Social Studies relates friends, family, school, and community experiences expressed through songs. Mathematics supports counting lines, verses, and organizing the sequence of each song.

Specific Competency	Assessment indicators
SC.EFL.2.12. Organization of shared play through short riddles, rhymes and tongue-twisters, to take part in games of the classroom and of our place, recognizing playing together as knowledge passed down through generations. CC, CIT, CCICC, CSE.	I.EFL.2.12.1. Recites riddles, rhymes, and tongue-twisters in English appropriate for the level, taking short turns with classmates. I.EFL.2.12.2. Follows and gives simple instructions to participate in classroom and community games. I.EFL.2.12.3. Recognizes shared games as knowledge passed down through generations within communities.

EFL.2.2.d.11. Words and expressions related to games, songs, celebrations, and stories from the local culture and community. EFL.2.1.d.22. Short oral texts used in everyday classroom and community interactions: greetings, introductions, songs, rhymes, riddles, instructions, and simple descriptions. EFL.2.2.d.34. Festivities, games, songs, and stories transmitted and shared within the community.	EFL.2.1.p.7. Repeats and intones rhymes, tongue twisters and short songs. EFL.2.2.p.9. Recites riddles, rhymes and verbal games suitable to this level. EFL.2.2.p.19. Take part in collaborative games following short instructions. EFL.2.1.p.38. Uses simple memory strategies such as drawing, play, singing, and repetition to remember vocabulary.	EFL.2.2.a.16. Enjoys the songs, games, stories and festivities shared in the community
Methodological guidlines		
To develop this competency, the learning situation begins with a question: what do children play in other places, and what do they say when they play? The teacher and the children explore short riddles, rhymes, tongue-twisters, and counting chants in English through play cards with images and short texts. Children look at the pictures, listen to the texts, identify familiar words, repeat sounds, and participate in word games. English is approached as a language that allows children to discover how other communities play with sounds, rhythm, and imagination, while connecting these experiences with games and expressions from their own families and communities. The methodology is based on Project-Based Learning (PBL) through the product “The Play Book of the Class”, a collection of short play cards in English with riddles, rhymes, and tongue-twisters. Children participate in rotating roles as picture-readers, line-finders, wonderers, echoers, and keepers. Reading routines, repetition, and collaborative play support pronunciation, memory, and participation. The process culminates in a play circle where children share a card with another class, presenting a short text they have explored together.		

PROGRAMA PILOTO

Interdisciplinary connections
Children arrive with different experiences with play: some know riddles and rhymes from home, others discover them at school, and others bring games in different languages. The teacher uses this diversity as a resource through collaborative teams where each child participates according to their possibilities. Gestures, signs, enlarged cards, tactile resources, audio, claps, and movements provide different ways to engage with play texts. Interdisciplinary connections are established with Cultural and Artistic Education, because riddles, rhymes, and tongue-twisters develop oral expression, rhythm, and creativity; Language and Literature, through reading short texts, recognizing rhymes, and interpreting meanings; Physical Education, through movements, claps, and gestures used in games; Mathematics, through counting rhythms, players, and turns; Natural Sciences, through riddles related to animals, plants, weather, and the body; and Social Studies, by connecting games with family, school, and community experiences.

Specific Competency	Assessment indicators
SC.EFL.2.13. Exploration of aesthetic wonder through short descriptions and narratives to speak about images, drawings, weavings, ceramics, and other visual forms from the community and the world, recognizing the sensations, emotions, and ideas that emerge through observation. **CC,CECA.**	**I.EFL.2.13.1.** Describes orally, using simple phrases, images, drawings, textiles, and ceramics from the local community and around the world (This is a..., it is big/small/red...). **I.EFL.2.13.2**. Uses simple phrases to name sensations and thoughts that arise when looking at an image or object (I see..., I like..., it makes me think of...). **I.EFL.2.13.3.** Appreciates visual forms from their own and other communities as meaningful expressions of their creators.

PROGRAMA PILOTO

Knowledge		
declarative	**procedural**	**atitudinal**
EFL.2.2.d.10. Words and expressions about foods, animals, plants, and everyday objects from the local environment.	EFL.2.2.p.10. Describes orally, using simple phrases, images, objects, people, animals, and places from the environment. EFL.2.2.p.33. Recognizes words that are shared or similar between the languages of the place and English	EFL.2.2.a.18. Appreciates visual forms such as drawings, weavings, and ceramics from their own and other places.
Methodological guidlines		
To develop this competency, the learning situation begins with a question that invites children to observe and describe visual forms: what do we see, and what do we feel, when we look closely at something made by human hands? The teacher presents visual forms from the community and other places, such as weavings, drawings, ceramics, and photographs, allowing children to observe colors, shapes, patterns, and details. Through short English expressions, students share what they see and how these forms make them feel, recognizing that visual creations can communicate ideas, emotions, memories, and ways of life . The methodology is based on Project-Based Learning (PBL) through the creation of “The Book of Visual Wonders”, a class anthology where children include images of visual forms, short English sentences describing what they see and feel, and information about their origin. Students participate in rotating roles such as observing details, asking questions, repeating agreed phrases, and creating the cards. Thinking routines such as See–Think–Wonder and Stop–Look–Listen–Think–Respond support observation, oral expression, and reflection, helping children use English as another language to share appreciation of their own and other communities’ visual expressions.		
Interdisciplinary connections		
Children arrive with different experiences observing visual forms, and the teacher uses this diversity as a resource, allowing each child to participate according to their possibilities within the shared product. Images, gestures, step-cards, and oral support provide different ways to observe, describe, and share ideas in English. Interdisciplinary connections are established with Cultural and Artistic Education, because weavings, drawings, and ceramics become resources to explore artistic expressions; Social Studies, through the recognition of places, communities, and cultural practices connected to each visual form; Natural Sciences, by relating plants, animals, rivers, and landscapes represented in the forms with the environment; Mathematics, through the observation of shapes, patterns, and quantities; and Language and Literature, by interpreting visual forms as texts and expressing observations and feelings through short sentences.		

PROGRAMA PILOTO

Specific Competency	Assessment indicators
SC.EFL.2.14. Exploration of short stories written or read in English by recognizing familiar expressions and overall meaning to connect with stories from communities that learn or speak English in different places, recognizing similarities and differences among experiences, traditions, and ways of life. CC, CECA.	I.EFL.2.14.1. Recognizes familiar expressions and words in a short story read or heard in English. I.EFL.2.14.2. Identifies the general meaning of a short story using images, key words, and intonation. I.EFL.2.14.3. Uses simple phrases to express what stood out and what seemed different in stories from communities that also use English.

Recognizes communities around the world that use or learn English in their own contexts.

PROGRAMA PILOTO

Methodological guidlines
To develop this competency, the learning situation begins with a question that invites children to explore stories from different places: what story is being told in this little book, and what story do we tell here? The teacher presents short illustrated stories originally written in English by children, teachers, and families from different communities. Students observe the cover, illustrations, and familiar words, listen to the story, and identify its beginning, middle, and end. Through short English expressions, children share ideas about characters, events, and connections between the stories and their own experiences. The methodology is based on Project-Based Learning (PBL) through the creation of "The Little Library of Stories", a class collection of story-cards that include the title, drawings of important moments, short English lines for the beginning, middle, and end, and information about where the story comes from. Students participate in rotating roles to observe images, identify parts of the story, and retell key moments. Reading routines such as See–Think–Wonder and Stop–Look–Listen–Think–Respond support comprehension, reflection, and the recognition that stories from different places can connect children through shared experiences.
Interdisciplinary connections
Children arrive with different experiences with stories, and the teacher uses this diversity as a resource, allowing each child to participate according to their possibilities through visual supports, gestures, drawings, and collaborative reading. Interdisciplinary connections are established with Language and Literature, because students read short stories, identify their beginning, middle, and end, and retell key events; Social Studies, through the exploration of families, places, and daily experiences represented in the stories; Natural Sciences, by relating animals, plants, rivers, and environments that appear in the texts; Cultural and Artistic Education, through illustrations, story-cards, and reading circles; Mathematics, by organizing and counting elements of the stories; and Physical Education, through gestures and movements that support reading activities.

Specific Competency	Assessment indicators
SC.EFL.2.15. Preservation of the living memory of our place, through simple expressions in English, to share what is done daily at home and in the community, recognizing those who have done and continue to do these practices. CC, CCICC, CECA.	I.EFL.2.15.1. Shares, using simple English phrases, what they do each day at home and in the community (I help..., I cook..., I water the plants...). I.EFL.2.15.2. Names family and community members who support and have supported these everyday practices. I.EFL.2.15.3. Recognizes local living memory as knowledge that deserves to circulate in English as well.

Knowledge		
declarative	**procedural**	**atitudinal**
EFL.2.2.d.8. Words and expressions about family, close people, and relationships of care. EFL.2.2.d.11. Words and expressions related to games, songs, celebrations, and stories from the local culture and community. EFL.2.2.d.14. Words and expressions from local languages that are shared in classroom experiences as part of the common repertoire. EFL.2.3.d.34. Festivities, games, songs, and stories transmitted and shared within the community.	EFL.2.2.p.11. Narrate everyday community events using simple oral phrases. EFL.22..p.30. Name words from the languages of the place in short English phrases. EFL.2.2.p.45. Recognizes people in the classroom who support shared practices and learning.	EFL.2.2.a.7. Appreciates words from local languages used in the classroom. EFL.2.2.a.16. Enjoys the songs, games, stories and festivities shared in the community. EFL.2.2.a.17. Values the living memory of the place as knowledge.

Methodological guidlines

The competency is developed through Project-Based Learning (PBL) using “The Class Album of Daily Practices” as the recurring product. Children bring a photograph or drawing of a daily family practice, observe and discuss it with classmates, and describe it using short English phrases such as she cooks, he walks, or they share food. Through routines such as See–Think–Wonder and Stop–Look–Listen–Think–Respond, learners connect images, short oral stories, and simple English expressions while recognizing who taught each practice. Teams assume rotating roles to identify actions, describe images, organize pages, and present their work. Throughout the project, children compare everyday practices from Ecuador and other communities, using English as a shared language to value family memories, cultural heritage, and respectful communication.

Interdisciplinary connections

Children participate in the class album according to their own learning pace and communication style, using visual, oral, and collaborative supports that allow everyone to contribute meaningfully. The project connects naturally with Language and Literature, as children read and create short texts based on family experiences; with Social Studies, by exploring family roles, community life, traditions, and relationships of care across generations; and with Natural Sciences, through the observation of foods, plants, animals, water, and everyday environments represented in daily practices. It also links to Cultural and Artistic Education through drawings, songs, and visual representations included in the album; to Mathematics by classifying, counting, sequencing, and grouping practices; and to Physical Education by recognizing and performing everyday movements such as walking, sweeping, weaving, carrying, and helping that are part of children’s daily lives.

PROGRAMA PILOTO

Specific Competency	Assessment indicators
SC.EFL.2.16. Expansion of cultural awareness through short texts in English about foods, plants, objects, and tools from the community, to describe what they are, what they are used for, and where they come from, recognizing the diversity of knowledge and community practices around them. CC, CCICC, CMCT, CECA.	I.EFL.2.16.1. Describes foods, plants, objects, and tools from the local community using vocabulary and living words from the languages of the place. I.EFL.2.16.2. Writes short phrases and labels images of foods, plants, objects, and tools from the local community. I.EFL.2.16.3. Recognizes the diversity of knowledge systems and the material intelligence of the communities that produce these foods, objects, and tools.

Knowledge		
declarative	**procedural**	**atitudinal**
EFL.2.1.d.10. Words and expressions about foods, animals, plants, and everyday objects from the local environment. EFL.2.1.d.13. Words and expressions about the nearby natural world: rivers, mountains, forests, animals, and plants. EFL.2.2.d.14. Words and expressions from local languages that are shared in classroom experiences as part of the common repertoire. EFL.2.2.d.20. Initial use of basic connectors to join ideas and express simple relationships. EFL.2.1.d.21. Numbers, colors, shapes, sizes, and quantities used in everyday situations. EFL.2.1.d.35. Plants, animals, rivers, mountains, and forests of Ecuador and the Americas.	EFL.2.2.p.6. Names places, people, objects and beings of the environment. EFL.2.2.p.10. Describes orally, using simple phrases, images, objects, people, animals, and places from the environment. EFL.2.3.p.23. Identifies simple information in cards, lists, and short descriptive texts using familiar vocabulary. EFL.2.3.p.24. Associates written language, images, and oral language to support meaning. EFL.2.4.p.26. Draws and labels objects, beings, and places of the environment, connecting images with written words. EFL.2.4.p.29. Completes simple lists, cards and forms with known vocabulary. EFL.2.2.p.30. Names words from the languages of the place in short English phrases. EFL.2.3.p.36. Uses known words to understand or approach new vocabulary. EFL.2.2.p.42. Describes plants, animals, foods, and tools from the environment using simple phrases.	EFL.2.2.a.7. Appreciates words from local languages used in the classroom. EFL.2.2.a.20. Cares for living beings and places named in classroom activities, showing respect and responsibility.

PROGRAMA PILOTO

Methodological guidlines
The competency is developed through Project-Based Learning (PBL) using “The Small Museum of Our Place” as the main product. Children explore real objects from their environment, such as foods, plants, tools, and everyday materials, and connect observation with simple English descriptions. Through routines such as See–Think–Wonder and Stop–Look–Listen–Think–Respond, learners identify characteristics, uses, and origins of objects while relating English words with the languages of their community. Teams create cards with images, short sentences, and key information about each item, assuming rotating roles to observe, name, describe, and organize the museum. The process promotes oral and written expression, vocabulary development, and appreciation of local knowledge by recognizing that everyday objects carry memories, uses, and cultural meanings.
Interdisciplinary connections
The Small Museum of Our Place connects with different areas of learning by using everyday objects as a source of knowledge and communication. It relates to Language and Literature, because children create and read short descriptive texts through the museum cards, strengthening vocabulary and written expression. It connects with Natural Sciences, as foods, plants, seeds, and leaves allow exploration of living beings and their environments. It relates to Social Studies by recognizing family practices, community work, and the cultural meaning of objects. Mathematics is integrated through classification, comparison, counting, and organization of items. Cultural and Artistic Education is present through drawings, organization, and presentation of the museum, while Physical Education connects through the movements and actions associated with using everyday tools.

Specific Competency	Assessment indicators
SC.EFL.2.17. Recognition of moments when the body is cared for, using simple English expressions to name places, people, and ways of caring for the body, recognizing the importance of relationships, routines, and well-being, and beginning to write short lines that name what is read. CC, CSE.	I.EFL.2.17.1. Uses simple phrases to name places, people, and ways the body is cared for (mom, grandma, kitchen, home, sleep, eat, rest, hug). I.EFL.2.17.2. Identifies emotions and bodily states related to care using A1 vocabulary (I am tired, I am hungry, I feel good). I.EFL.2.17.3. Recognizes family and community members who support bodily care as important bonds.

PROGRAMA PILOTO

Knowledge		
Declarative	**procedural**	**atitudinal**
EFL.2.1.d.8. Words and expressions about family, close people, and relationships of care. EFL.2.1.d.9. Words and expressions about the body, its parts, and basic states of well-being. EFL.2.1.d.31. Basic vocabulary and short phrases to name simple emotions, such as happy, sad, tired, scared, excited, and calm. EFL.2.1.d.33. Everyday ways of moving, resting, playing, and caring for the body.	EFL.2.2.p.39. Describes parts of the body and basic ways to care for them using simple phrases. EFL.2.2.p.40. Names moments and places where the body is cared for.	EFL.2.2.a.13. Cares for their own body and respects classmates during learning activities. EFL.2.2.a.14. Recognizes family and community members who support care of the body. EFL.2.2.a.15. Values knowledge about the body, movement, and healthy habits.
Methodological guidlines		
To develop this competency, the learning situation begins with a question: when is our body cared for, and who cares for it? Children collect images or drawings of daily care moments such as washing hands, drinking water, resting, breathing, and moving safely. Through reading routines, they observe pictures, listen to short English sentences, identify action words, and gradually connect oral language with written forms. The class develops the project “The Class Notebook of Caring Moments”, where teams create pages with drawings, short English phrases, and information about the place or people involved in each practice. Using repeated sentence patterns, collaborative roles, and comparisons between words, children recognize that English helps name actions, emotions, body care, and relationships while valuing healthy habits and shared care.		
Interdisciplinary connections		
Children develop this competency through connections with different areas of learning. Language and Literature is strengthened because children read, compare, and write short texts related to daily care practices, recognizing words and sentence patterns. Natural Sciences connects through the exploration of the body, hygiene, rest, movement, nutrition, and healthy habits that support well-being. Social Studies contributes by recognizing family and community members who participate in caring practices and understanding care as part of social relationships. Cultural and Artistic Education connects through drawings, gestures, and visual representations that communicate moments of care. Physical Education relates to movement, breathing, body awareness, and respectful participation in activities that promote personal and collective well-being. These connections allow children to understand that caring for the body involves knowledge, relationships, and everyday actions.		

PROGRAMA PILOTO

Specific Competency	Assessment indicators
SC.EFL.2.18. Valuing one's own preferences and those of classmates through simple expressions about what one likes, what one does not like, and what one likes sometimes, recognizing that each person has different tastes.CC, CSE, CIT.	I.EFL.2.18.1. Expresses likes, dislikes, and occasional preferences using simple phrases (I like..., I don't like..., sometimes I like...). I.EFL.2.18.2. Asks and answers questions about classmates' preferences (Do you like...? Yes, I do. / No, I don't.). I.EFL.2.18.3. Accepts that differing preferences and saying no are legitimate ways of being in the classroom.

Knowledge

Simple affirmative sentences using expressions such as I am, you are, this is, and there is. EFL.2.2.d.18. Basic ways to express absence, negation, and simple disagreement with no / I don't / there isn't. EFL.2.2.d.30. Basic formulas to express like and dislike: I like, I don't like, sometimes I like.	EFL.2.2.p.5. Says one's own name, age and place of residence with simple phrases. EFL.2.2.p.13. Asks and answers about identity, place and mood. EFL.2.2.p.18. Expresses disagreement respectfully and without aggression. ÇEFL.2.4.p.28. Writes simple affirmative and negative sentences about oneself, one's place, and one's likes.	EFL.2.2a.3. Is willing to speak in English. EFL.2.2.a.11. Treats with respect those who think or feel differently.

PROGRAMA PILOTO

Methodological guidlines
To develop this competency, the learning situation begins with a question connected to children's daily experiences: what do I like, what do I not like, and what do I like sometimes? Through images of foods, games, animals, places, and familiar situations, children identify and express preferences using short English phrases. The class develops the project "The Class Wall of Likes", where teams create cards with drawings and sentences such as I like..., I don't like..., and I like sometimes.... Through reading, writing, oral interaction, and collaborative roles, students gradually recognize patterns in English and communicate their opinions. The use of familiar cultural references and repeated sentence structures supports confidence, while comparisons between cards help children notice similarities and changes in words.
Interdisciplinary connections
Children participate with different experiences when expressing their preferences, and the teacher uses this diversity as an opportunity for inclusion through the same shared product. The activities connect with Language and Literature because children read, compare, and write short phrases to communicate their likes and dislikes. Natural Sciences is integrated through the exploration of foods, animals, and weather elements that appear on the cards and relate to the environment and daily life. Mathematics connects through counting cards, organizing preferences into columns, and comparing quantities. Cultural and Artistic Education contributes through drawings, images, and gestures that represent personal choices and cultural references. These interdisciplinary connections allow children to use English to describe their experiences while recognizing the diversity of tastes, interests, and contexts within the classroom.

Specific Competency	Assessment indicators
SC.EFL.2.19. Understanding and producing simple instructions to move the body through simple expressions, to play with classmates, and recognizing the importance of the body in play and the care it needs.CC, CSE.	I.EFL.2.19.1. Understands and follows short English instructions for movement, play, and rest (stand up, sit down, jump, clap, rest). I.EFL.2.19.2. Gives simple instructions to classmates using A1 imperatives and body vocabulary. I.EFL.2.19.3. Attends to their own and classmates' bodies during play, recognizing the care they need.

PROGRAMA PILOTO

Knowledge		
declarative	**procedural**	**atitudinal**
EFL.2.2.d.9. Words and expressions about the body, its parts, and basic states of well-being. EFL.2.2.d.19. Simple expressions and imperatives used to ask, invite, offer help, and respond politely (e.g., come, look, listen, help, please, thank you, sorry). EFL.2.1.d.22. Short oral texts used in everyday classroom and community interactions: greetings, introductions, songs, rhymes, riddles, instructions, and simple descriptions. EFL.2.2.d.33. Everyday ways of moving, resting, playing, and caring for the body.	EFL.2.2.p.19. Takes part in collaborative games following short instructions. EFL.2.2.p.35. Rehearses pronunciation of new words and phrases. EFL.2.2.p.39. Describes parts of the body and basic ways to care for them using simple phrases. EFL.2.1.p.41. Follows short instructions to move, play and rest.	EFL.2.2.a.13. Cares for their own body and respects classmates during learning activities.

Methodological guidlines

To develop this competency, the learning situation begins with a question connected to children's daily experiences: how do we care for our body when we move, play, and interact with others? The teacher invites students to explore body care routines and movement activities from home and school, such as washing hands, drinking water, resting, breathing, walking, and playing together. Through images, gestures, songs, and short instructions, children identify body parts and use simple English expressions such as My hands, I drink water, and I rest. Project-Based Learning is organized around "The Class Book of Body Care and Movement Games," where teams create pages with drawings, key words, and short instructions in English. Through repetition, games, and collaborative activities, children develop communication, pronunciation, and respect for others while learning to care for their bodies.

Interdisciplinary connections

The interdisciplinary connections are established because body movement, language, and daily experiences are integrated through meaningful activities. Physical Education connects with the competency because children practice walking, running, jumping, turning, and breathing while following and expressing movement instructions in English. Language and Literature is connected through the reading and writing of short instructions, the organization of words in sequence, and the careful copying of simple lines that support early literacy development. Mathematics relates through counting claps, jumps, and turns, as well as recognizing sequences such as first, then, and last during games. Natural Sciences connects because children explore the body in motion, breathing, and resting as part of body care. Cultural and Artistic Education is integrated through the drawings and gestures included on each page of the class book.

PROGRAMA PILOTO

Specific Competency	Assessment indicators
SC.EFL.2.20. Recognition of sources that provide information about the community and the world through short descriptions of books, posters, and images, to find simple information on topics of interest, recognizing that knowledge comes from many voices and experiences. CC, CMCT, CD.	I.EFL.2.20.1. Uses books, posters, and images to find simple information about their local and global environments. I.EFL.2.20.2. Describes the basic elements of a book or poster (cover, illustration, title, author) to understand what it communicates. I.EFL.2.20.3. Shares with the group what they learned from a short inquiry, recognizing that knowledge comes from many voices.

Knowledge		
Declarative	**procedural**	**atitudinal**
EFL.2.2.d.7. Words and expressions about nearby places: classroom, school, home, neighborhood, and community. EFL.2.1.d.17. Simple questions to ask about people, places, quantities, and everyday situations with what / where / who / how / how many. EFL.2.2.d.20. Initial use of basic connectors to join ideas and express simple relationships. EFL.2.3.d.23. Short written texts used in everyday situations: notices, signs, labels, invitations, lists, and illustrated cards. EFL.2.3.d.24. Different supports and formats for short texts in classroom and community environments: paper, cardboard, boards, walls, drawings, and screens. EFL.2.3.d.25. Basic elements of illustrated children's books: cover, title, author, and illustrations.	EFL.2.1.p.3. Identifies the general topic of a short audio using keywords and visual supports. EFL.2.3.p.23. Identifies simple information in cards, lists, and short descriptive texts using familiar vocabulary. EFL.2.3.p.47. Consults books, notices and images to seek simple information about the place and the world. EFL.2.2.p.48. Shares orally with the group what has been learned from a short consultation.	EFL.2.2.a.24. Shares with confidence what is learned, asked, and explored in classroom activities.

PROGRAMA PILOTO

Methodological guidlines
The competency begins by inviting children to explore different sources of information in the classroom through the question: Where does what we know come from? They identify books, posters, images, and screens using simple English expressions while exploring materials from their local context alongside resources from communities around the world where English is learned or used. Through these experiences, children recognize that information can be communicated through different formats. The competency is developed through Project-Based Learning (PBL) with the collective product “The Class Atlas of Sources.” Working in rotating roles, children identify, classify, illustrate, and describe different sources using short English sentences. As the atlas grows, they compare sources, identify similarities and differences, and share their work with another class. Formative assessment is based on observation, oral responses, and classroom documentation, while summative assessment is evidenced through the progressive construction and presentation of the class atlas.
Interdisciplinary connections
Children arrive with different ways of observing, naming, reading, and writing, and the teacher values this diversity by providing multiple pathways for participation in the creation of The Class Atlas of Sources. Children engage with the project according to their needs through visual supports, printed labels, signs, gestures, and structured routines, while those who progress more quickly enrich the atlas by comparing additional sources on the same topic. This work connects naturally with Language and Literature, as children identify books, tiAtheir written English descriptions.

Specific Competency	Assessment indicators
SC.EFL.2.21. Exploration of cooperation among classmates by following short instructions to build classroom and play objects, recognizing that what is built together sustains the classroom as a space of common making. CMCT, CIT, CSE.	I.EFL.2.21.1. Follows brief English instructions to build classroom and play objects with a classmate. I.EFL.2.21.2. Asks for and offers help using A1-level expressions during collaborative construction. I.EFL.2.21.3. Recognizes that what is built together supports the classroom as a shared space for making.

EFL.2.1.d.19. Simple expressions and imperatives used to ask, invite, offer help, and respond politely (e.g., come, look, listen, help, please, thank you, sorry) EFL.2.1.d.28. Basic politeness expressions used in everyday classroom interactions, including saying “please,” “thank you,” “sorry,” “excuse me,” and “you’re welcome.” EFL.2.1.d.29. Basic formulas for requesting and providing help, such as can you help me?, I can help you, and here you are.	EFL.2.2.p.14. Requests help, permission and information with politeness formulas. EFL.2.2.p.15. Offers help, objects and attention to a classmate. EFL.2.2.p.19. Takes part in collaborative games following short instructions. EFL.2.1.p.41. Follows short instructions to move, play and rest. EFL.2.2.p.46. Builds classroom and play objects following short instructions with a classmate.	EFL.2.2.a.4. Recognizes that learning English is shared work. EFL.2.2.a.10. Asks for help when needed and offers it when possible. EFL.2.2.a.23. Cooperates with classmates in shared tasks and activities.
Methodological guidlines		
The competency begins with a classroom challenge: what can we build together and how can we help each other? Children identify objects needed in the classroom or play space and use short English instructions such as Take the paper, Cut the line, Help your friend, and Wait your turn during cooperative activities. Through this process, they recognize that language supports shared actions and teamwork. The competency is developed through Project-Based Learning (PBL) with the product “The Class Workshop of Shared Objects.” Teams plan, build, and present classroom objects through rotating roles that promote collaboration, following instructions, sharing materials, and using simple English expressions. The methodology relates cooperation to local practices such as the minga and the chakra. Formative assessment is based on teacher observation of participation and language use, while summative assessment considers the completed object and its oral presentation.		

PROGRAMA PILOTO

Interdisciplinary connections	
Children participate in the workshop with different ways of communicating, following instructions, and contributing to teamwork. The teacher provides diverse supports such as audio instructions, visual step cards, gestures, signs, and flexible participation roles so that each child can engage according to their needs and strengths. Those who progress more quickly support classmates, organize materials, or help document the workshop process. This project connects with Cultural and Artistic Education, through cutting, folding, drawing, and decorating the created objects; with Mathematics, through counting materials, ordering steps, and identifying shapes; with Natural Sciences, through exploring the characteristics and origins of materials; with Social Studies, by relating cooperation to community practices such as the minga and the chakra; and with Language and Literature, through reading and interpreting short English instructions and recording the process.	
Specific Competency	**Assessment indicators**
SC.EFL.2.22. Building small agreements for classroom coexistence through expressions and short posters about what is agreed and what is not when being together, promoting the classroom as a respectful, safe, and shared space. **CC, CCICC, CIT.**	**I.EFL.2.22.1.** Participates in creating classroom agreements (we listen, we share, we help, we do not hurt) using words and drawings. **I.EFL.2.22.2.** Writes simple affirmative and negative sentences about what is and is not agreed upon in the classroom. **I.EFL.2.22.3.** Creates short posters to make classroom agreements visible to everyone. **I.EFL.2.22.4.** Accepts and follows collective classroom agreements as part of living together in the classroom.

PROGRAMA PILOTO

Knowledge		
declarative	**procedural**	**atitudinal**
EFL .2.3.d.5. Basic written conventions of English, including the alphabet, capitalization, and common punctuation. EFL.2.1.d.18. Basic ways to express absence, negation, and simple disagreement with no / I don't / there isn't. EFL.2.3.d.23. Short written texts used in everyday situations: notices, signs, labels, invitations, lists, and illustrated cards. EFL.2.3.d.24. Different supports and formats for short texts in classroom and community environments: paper, cardboard, boards, walls, drawings, and screens. EFL.2.3.d.26. Basic features of signs and notices from the local environment: symbols, words, colors, and location. EFL.2.1.d.36. Basic agreements for living together in the classroom, including mutual care, taking turns, helping others, and non-aggression.	EFL.2.2.p.18. Expresses disagreement respectfully and without aggression. EFL.2.3.p.20. Recognition of written words and short phrases in everyday environmental texts such as notices, signs, and labels, supporting initial reading comprehension through familiar vocabulary and basic print recognition. EFL.2.4.p.25. Writes and copies familiar words and short phrases with visual support and basic decoding. EFL.2.4.p.27. Elaborates short posters with drawings and words for the classroom and the community to communicate simple messages. EFL.2.3.p.28. Writes simple affirmative and negative sentences about oneself, one's place, and one's likes. EFL.2.1.p.45. Recognizes people in the classroom who support shared practices and learning. EFL.2.2.a.11. Treats with respect those who think or feel differently.	EFL.2.2.a.12. Accepts that saying no and disagreeing are part of respectful classroom life. EFL.2.2.a.22. Participates responsibly in the classroom's collective agreements.

PROGRAMA PILOTO

Methodological guidlines
The learning process begins with the question: how do we want to be together in our classroom? Children identify daily situations of coexistence and create agreements using short English expressions such as We listen, We share, We help, and We say sorry. Through posters and visual supports, they recognize that written language helps organize respectful actions and classroom relationships. The competency is developed through Project-Based Learning (PBL) with the product "The Class Charter of Agreements." Children collaboratively create posters with English phrases, symbols, and shared commitments through rotating roles that promote participation, listening, writing, and cooperation. The process includes respectful disagreement, asking for help, and repairing conflicts. Assessment is based on teacher observation, child reflections, self-assessment cards, and the final presentation of the classroom charter.
Interdisciplinary connections
Children participate in the classroom charter with different ways of communicating, listening, and expressing agreement or disagreement. The teacher values this diversity by providing different routes of participation through visual icons, gestures, signs, turn-taking supports, and predictable routines. Each child contributes according to their possibilities by proposing, listening, choosing, writing, or maintaining the shared agreements. The interdisciplinary connections are established with Physical Education, through turn-taking and cooperation in group activities; Social Studies, by relating classroom agreements with community practices such as the minga and assemblies; Cultural and Artistic Education, through the creation of icons and posters that represent agreements; Natural Sciences, through commitments related to caring for the environment and shared spaces; and Language and Literature, through reading and writing short meaningful phrases for the classroom charter.

Specific Competency	Assessment indicators
SC.EFL.2.23. Understanding of images and words about the body and what cares for it, through diagrams and short descriptions, to name parts of the body and plants of our place that care, recognizing those who know about the body in the community. CC, CMCT.	I.EFL.2.23.1. Names body parts using simple phrases based on diagrams and short descriptions (head, hand, foot, eyes, ears...). I.EFL.2.23.2. Describes local plants that support body care (matico, chamomile, nettle, guayusa) and relates them to their uses. I.EFL.2.23.3. Recognizes community members who hold knowledge about the body and shares this knowledge respectfully.

PROGRAMA PILOTO

Knowledge		
Declarative	**procedural**	**atitudinal**
EFL.2.1.d.9. Words and expressions about the body, its parts, and basic states of well-being. EFL.2.1.d.10. Words and expressions about foods, animals, plants, and everyday objects from the local environment. EFL.2.1.d.21. Numbers, colors, shapes, sizes, and quantities used in everyday situations. EFL.2.1.d.33. Everyday ways of moving, resting, playing, and caring for the body.	EFL.2.2.p.10. Describes orally, using simple phrases, images, objects, people, animals, and places from the environment. EFL.2.3.p.24. Associates written language, images, and oral language to support meaning. EFL.2.4.p.25. Writes and copies familiar words and short phrases with visual support and basic decoding. EFL.2.4.p.26. Draws and labels objects, beings, and places of the environment, connecting images with written words. EFL.2.4.p.29. Completes simple lists, cards and forms with known vocabulary. EFL.2.3.p.34. Uses images, gestures, and sounds as supports for understanding English. EFL.2.1.p.38. Uses simple memory strategies such as drawing, play, singing, and repetition to remember vocabulary. EFL.2.2.p.39. Describes parts of the body and basic ways to care for them using simple phrases. EFL.2.2.p.40. Names moments and places where the body is cared for. EFL.2.2.p.42. Describes plants, animals, foods, and tools from the environment using simple phrases.	EFL.2.2.a.13. Cares for their own body and respects classmates during learning activities. EFL.2.2.a.14. Recognizes family and community members who support care of the body. EFL.2.2.a.15. Values knowledge about the body, movement, and healthy habits.

PROGRAMA PILOTO

Methodological guidlines
To develop this competency, the learning process begins with the question: What does my body need and who in my family and community knows how to care for it? Children explore body parts, healthy habits, and community knowledge related to plants and people who support wellbeing. Through images, cards, and diagrams, they connect English words with familiar elements such as hand, foot, eye, matico, and manzanilla, as well as family members and health professionals. The methodology uses Project-Based Learning (PBL) through the product "The Class Atlas of the Body and Its Carers." Teams create atlas pages representing body parts, care resources, and community knowledge using simple English words and phrases. The process includes collaborative roles, continuous observation, portfolio review, and a final oral presentation of the atlas.
Interdisciplinary connections
Children participate in the atlas with different ways of observing, communicating, and expressing knowledge. The teacher values this diversity by providing different forms of participation, such as visual supports, gestures, collaborative work, and opportunities to contribute through drawing, speaking, tracing, or writing. Interdisciplinary connections are established with Natural Sciences, through the exploration of body parts, plants, and care practices related to wellbeing; Physical Education, by recognizing body movements and their functions; Social Studies, through the identification of family and community members who contribute to health care; Cultural and Artistic Education, through the creation of drawings and visual representations of the body and plants; and Language and Literature, by developing early writing skills through copying and creating short English phrases for the atlas.

Specific Competency	Assessment indicators
SC.EFL.2.24. Recognition of the natural world of our territory, through short texts and images, to name and compare rivers, mountains, forests, animals and plants of Ecuador and the Americas — promoting their care as a condition of inhabiting. CC, CMCT, CCICC.	I.EFL.2.24.1. Names rivers, mountains, forests, animals, and plants from Ecuador and the Americas using A1-level vocabulary. I.EFL.2.24.2. Compares elements of the local natural environment with those of other places using simple phrases (this is a river, that is a mountain, this animal lives here...). I.EFL.2.24.3. Recognizes that caring for the natural world is essential to living in it and expresses this through words and gestures.

PROGRAMA PILOTO

Knowledge		
declarative	**procedural**	**atitudinal**
EFL.2.1.d.10. Words and expressions about foods, animals, plants, and everyday objects from the local environment. EFL.2.1.d.13. EFL.2.1.d.35. Plants, animals, rivers, mountains, and forests of Ecuador and the Americas.	EFL.2.p.6. Names places, people, objects and beings of the environment. EFL.2.2.p.10. Describes orally, using simple phrases, images, objects, people, animals, and places from the environment. EFL.2.3.p.26. Draws and labels objects, beings, and places of the environment, connecting images with written words. EFL.2.2.p.42. Describes plants, animals, foods, and tools from the environment using simple phrases. EFL.2.2.p.43. Compares elements of Ecuador's natural environment with those of the Americas using simple phrases.	EFL.2.2.a.20. Cares for living beings and places named in classroom activities, showing respect and responsibility. EFL.2.2.a.21. Recognizes the natural world of Ecuador and the Americas as a shared environment and common home.

PROGRAMA PILOTO

Methodological guidlines

The learning process begins with the question: How is the place where we live and how can we take care of it? Children explore rivers, mountains, forests, animals, and plants from Ecuador and the Americas, connecting images, maps, and English words such as river, mountain, forest, animal, and plant. Through short texts, drawings, and cards, they recognize that the natural world is a network of relationships between living beings, places, and care actions.

The methodology is developed through Project-Based Learning (PBL) with the collective product “The Class Map of Our Natural World.” Each team creates map pages about regions such as the Andes, Coast, Amazon, and Islands, including drawings of natural elements and short English sentences about their care. Collaborative roles allow students to locate, name, describe, draw, and write. The process concludes with comparisons between regions and the presentation of the map, promoting respect and responsibility toward the environment.

Interdisciplinary connections

Children participate in the map through different ways of observing, communicating, and representing knowledge. The teacher values this diversity by providing different forms of participation, such as visual supports, collaborative work, gestures, and connections between local words and English vocabulary. Natural Sciences is connected through the exploration of rivers, mountains, forests, animals, plants, and environmental care practices. Social Studies connects through the recognition of Ecuador’s regions, territories, and community practices. Mathematics is integrated through counting, grouping, and comparing natural elements from different regions. Cultural and Artistic Education is connected through drawings and visual representations of landscapes, animals, and plants. Language and Literature supports the reading and writing of short English phrases used to describe and care for the natural world.
